

Hike in Salaries, decline billing rates and higher tax provisioning resulted in lower EBITDA and Net margins

Largely impacted by hike in salaries and lower billing rates, EBITDA margin for Q1FY11 fell by 610 bps (YoY) to 28.0%. However, impact of decline in EBITDA was neutralized by higher utilization of employees, which stood at 73.0% for current quarter. As STPI tax holiday for certain units expired, 80% of revenues came under taxable cap in Q1FY11 (70% in Q4FY10), and thus the effective tax rate stood at 25.4% for Q4FY11. Net profit for Q1FY11 declined by 2.6% (YoY) to Rs 1488.0 crore.

Attrition rate remains at cautious level

Despite double digit growth in salaries attrition rate remained high at 15.8% in Q1FY10. With poaching of skilled employees going around, retaining of skilled employees remains one of key issue for Infosys. However, on the basis of better revenue visibility, the management expects attrition rate to come down in coming few quarters. Beside this, management has increased hiring target by 6000 to 36000 for FY11.

Valuation and Recommendation

Upward revision in the revenue guidance hints towards a strong demand environment and also eases the concern with regard to Europe but the revision in the earnings guidance was below the Street's expectations. In terms of verticals, the company expects a strong demand growth from the BFSI, energy and retail verticals. At CMP of Rs 2758.9, the stock is trading at 19.3x its FY12 earnings estimates of Rs 143.2. On the basis of better long term revenue visibility and lower attrition rates, we recommend a buy stock at CMP.
