- ✦ 3M Acceleration
- ✦ Sourcing effectiveness
- ✦ eProductivity

MESSAGE FROM THE CHAIRMAN

The year ended December 31, 2005 was indeed a momentous one for us. Our Company witnessed excellent growth on the top & bottom line & is well ahead of the industry average in terms of growth. I am delighted with our performance.

For Companies, scaling up is vital for longevity and prosperity. The growth it generates feeds customer demand for stronger, more stable partners, who consistently deliver value at competitive costs. Strong growth permits companies to build their brand and human capital, to seize market share, to amortize costs on sales, administration and R&D, not to mention financial stability as I always believe, 3M's drive to scale-up will come from it's innovative and diverse product line and most certainly, our ability to offer long-term value to our customers.

Our strong product base coupled with a sound business model, is fortified by a leadership that leads by example. A leadership that rolls up its sleeves and dives into the details, be it project reviews or scoping customer needs or for that matter motivating their teams. I thank them for leading 3M India so well and I am confident of their ability to lead our company to an even stronger & greater future.

Finally, I believe that such strong results are a product of a dedicated, committed & hard-working team. I thank them for their stellar performance and I exhort them to continue to foster their culture of excellence, while sticking to the highest ethical standards.

Defining a vision of the future, far ahead of where we stand today, is essential to unlock the imagination and passion of people. We need to internalise each facet of this vision, see where we are found wanting, and systematically address each shortcoming. Once the vision becomes part of our bloodstream, growth is automatic & a certainty.

Yashovardhan Birla

MESSAGE FROM THE MANAGING DIRECTOR

The people at 3M India are committed to delivering solutions to our customers problems, using innovative 3M technologies and products, growing faster than the economy we serve and delivering strong results. In 2005, they continued to transform the way we operate, achieving several new milestones – both financial and in other key areas of operating performance.

I am delighted to report to you that your Company registered a top line growth of 45.4% over 2004, way above industry averages. We posted another all-time high in earnings growth of 50.4%. Our results were driven primarily by a combination of solid top-line growth and continued improvements in operational efficiency. In addition, cost-reduction projects related to our corporate initiatives had a direct impact on our bottom line. Needless to say, the very core of our raison d'être are our customers – working closely with them, creating and sustaining customer loyalty has contributed significantly to our results.

A rejuvenated culture of accountability is reinforcing the delivery of broad-based business results and all of our businesses contributed to our sales and profit growth in 2005.

We enter 2006 with strong momentum, confident in our ability to sustain double-digit earnings growth both this year and longer-term. We're delivering strong results by leading change and leveraging the power inherent in the 3M business model. A culture of customer-inspired innovation is at the core of this business model. Our people apply multiple technologies to a broad spectrum of markets, and they continue to transform the process of innovation – from idea creation to successful product commercialization – by making better choices and at a faster pace. We have substantially reduced cycle time – the number of months it takes for a qualified product idea to go from concept to successful commercialization. That means sales start earlier and add up more quickly.

Six Sigma is 3M's overarching initiative and it continues to drive growth, reduce costs and increase cash flow in 3M businesses around the world. It has become deeply embedded in every function and business. Simply put, it's now the way we work. A key way in which we use Six Sigma tools is "Six Sigma with Our Customers" projects - these joint projects produce a relationship with customers that transcends that of the traditional role of a product supplier. We come to be appreciated as a valued business partner, as well.

Achieving results ethically is a cornerstone of the 3M culture. Close to two decades of operating with honesty and integrity has earned the company trust from customers, respect and credibility, and dedication from our employees. Our reputation is an incalculable asset and a source of pride for 3Mers in India. We recognize that good reputations are much more easily lost than won, and we're fully committed to protecting our reputation for straightforward, ethical behavior.

The impressive results that your Company has delivered would not have been possible without the yeoman contribution of all employees, channel partners and outsource partners who work day and night to execute and deliver the vision of the company. I am sure all of you will join me in complimenting them for putting in extraordinary work to achieve wonderful results.

I am exceptionally proud of the 3M employees in India and what they have achieved. Not only am I proud of the business results but also the way that they have displayed their humanity by contributing from their own pockets to support the Prime Minister's National Relief Fund at the time of the recent terrible earthquake in Northern India. Your Company had a contribution matching scheme and the employees really stepped up. This group of employees are the equal of any group of 3M employees globally.

As we move forward, we will start to increase our investments in India to create an infrastructure to enable continued growth that is well in excess of the economic growth of the country.

Finally, I would like to thank your Board of Directors. Their leadership and advice to me and our team is invaluable.

As I look to the future, I sincerely believe that our best years are ahead of us.

Bert O'Donoghue

REPORT OF THE DIRECTORS

Your Directors have pleasure in presenting their Report and the Audited Accounts for the year ended December 31, 2005.

Financial Results

(Rs. in lakhs)

MANAGEMENT DISCUSSION AND ANALYSIS

The Company has a wide spectrum of products to cater to the requirements of Industrial, Automotive, Healthcare, Consumer & Office Markets, etc., to name a few.

a) Industry Structure and Developments

The Company sales excluding exports grew by 45.4 % over previous year.

The Company continues its focus on Industrial Segments, its

c) Segment-wise or product-wise performance

INDUSTRIAL MARKETS

3M's Industrial business segment represents some of our original businesses, such as tape, coated and non-woven abrasives, and specialty adhesives. As industrial brands are continuously transformed through technological innovation, this business segment also aptly represents 3M innovations at work. Our Industrial market now offers the broadest line of products for markets in automotive, aerospace and automotive after markets. Product applications range from grinding, surface conditioning and super abrasives to packaging systems.

technological advantage of products and expertise. Your Company sources its requirement of materials both for manufacturing & trading from its 3M Affiliates around the globe as the products are technologically advanced.

Major portion of the revenue comes from traded goods which 3M has technological advantage worldwide. Few of our power brands are Scotchkote, Scotchint, Micropore, Thinsulate, Post-it®, Filtrete™, Scotch®.

b) Opportunities and Threats

2005 was another encouraging year for the Indian economy. The continued stability at home contributed to the favourable business environment.

We believe that our ability to compete will depend on a number of factors beyond our control which include

- currency exchange fluctuations
- the price at which our competitors offer their products and services and
- to the extent to which our competitors respond to the customer's needs

We strongly believe in our Brand Equity.

Rs. in lakhs

		31.12.05	31.12.04
Financial Highlights	Segment Revenue	6,456.68	4,781.80
	Profit before Interest & Tax	1,388.86	1,003.14
	Capital Employed	1,361.93	1,133.52

Highlights

- Strong growth in the construction components segment where specialty tapes are used for various applications like curtain walling, glazing and panel attachment applications in elevators.
- Growth in metal fabrication segment where our abrasives products are used for MS and SS fabrication applications.
- Steady and sustained growth in the AOEM and auto parts segments where our specialty tapes and abrasives are used for various applications in the manufacture of automobiles, motorcycles and various auto components.

AUTOMOTIVE & SPECIALTY MATERIALS MARKETS

Corrosion Protection Products offer high quality high durability coatings for the pipelines which are used for transporting crude oil / natural gas from exploration area like oil fields to refineries.

Specialty Materials represents some of the very advanced technological products to automotive / oil & gas and industrial segments which add tremendous value to our customers in auto components manufacturing industry.

Design & sell engineered products for the automotive OEM industry. Provide productivity enhancing solutions for the automotive aftermarkets in car repair and in enhancing appearance of cars through a wide range of car care treatments and accessories

		Rs. in lakhs	
		31.12.05	31.12.04
Financial Highlights	Segment Revenue	13,523.58	8,316.49
	Profit before Interest & Tax	1,741.33	1,195.98
	Capital Employed	5,839.06	4,749.38
Highlights	<ul style="list-style-type: none"> Oil exploration projects, auto components progress during the second half of the year resulted in significant growth. Several initiatives have been implemented to improve productivity. Growth for corrosion protection products and specialty materials in the coming years depends largely on the automotive industry performance and implementation of oil exploration projects. Recorded good growth in the automotive OEM business for both designed and engineered products. 		

HEALTH CARE MARKETS

Health Care businesses provide innovative products, services and technologies that help improve people's health and well being in the Hospitals and Dental clinics. 3M India holds leading position in a broad array of market segments – in medical, surgical and dental products and also provides technologies for other health care manufacturers.

		Rs. in Lakhs	
		31.12.05	31.12.04
Financial Highlights	Segment Revenue	5,501.07	4,437.46
	Profit before Interest & Tax	335.08	274.98
	Capital Employed	1,280.46	1,136.99
Highlights	<ul style="list-style-type: none"> 3M has been working relentlessly with customers in imparting education on hospital / dental practices and protocol development / compliance across the country. Over 40,000 customers were contacted by marketing, technical and international speaker programs in the hospital, dental and dairy industry. We worked with customers and helped set-up local chapters of nurses clubs, infection control societies, etc., in major cities. The launch of a new nanotechnology product Z350 was well received by dentists and will lead to faster growth. Faster penetration in cleaning and disinfection products and dressings helped growth in the medical business in 2005. The launch of orthodontic products in 2005 will accelerate growth. Six sigma projects undertaken with some leading customers have helped improved efficiency for the customers and have helped improved relationships and business for 3M with these customers.
