Annual General Meeting

On Wednesday, March 28, 2012
at 3.00 p.m.

at Birla Matushri Sabhagar
19, Sir Vithaldas Thackersey Marg
Mumbai 400 020

Members are requested to kindly bring their copies of the Annual Report to the Meeting.

Our performance in 2011 was satisfying. We want to sustain this progress to ensure that the company continues on its growth trajectory.

Our core processes exhibit vitality, teamwork and innovativeness which will help the entire organization to move together and seize various growth opportunities that come our way.

Plant Operations

ACC Wadi

The state-of-the-art kiln at Wadi, the Kudithini and Thondebhavi grinding plants in Karnataka and the Chanda clinkering line in Maharashtra stabilized during the year. The other plants improved in overall performance, efficiency and productivity.

Four of our plants received national manufacturing excellence awards.

We aim to sustain this trend, particularly in respect of key deliverables like capacity utilization, energy efficiency, quality, safety, maintenance and cost competitiveness. We wish to raise the bar in manufacturing performance through continuous improvements in operation processes, comprehensive maintenance and high safety standards.

ACC Chanda

ACC Lakheri

ACC Gagai

Customer Service

One of our most important objectives is to provide superior value to our customers through continuous improvements in quality and service levels.

A large and committed dealer network, are partners in servicing customers throughout the country.

Special application cements namely, F2R, Concrete+ and Coastal+, were extended to new regional markets and were well received.

Reaching the End-user

Efficient distribution and logistics management is a key differentiator in customer servicing.

We initiated a plan to enhance delivery performance by improving in-plant logistics, optimizing rail movement, faster vehicle turnaround time and better warehousing.

Sustainability

We are proud of our track record as a trend-setter among cement companies in sustainable development. An overarching target is the reduction of carbon dioxide emissions through improvements in each major stage of production in different ways:

- a) by promoting blended cements
- b) by implementing improvements in energy efficiency
- c) by promoting the use of alternative fuels and raw materials (AFR)
- d) by promoting clean green technologies

We actively support water management and conservation schemes for the communities around our operations.

ACC's environment-friendly ethos is illustrated by the green campus of our plants.
