CONSUMABLES

Fluxofil-18 (M) Spl. An ultra low hydrogen flux-cored wire, specially developed for welding corrosion resistant high tensile steels for railway wagon building.

Inox - 2553 This welding electrode was introduced for the first time in India for welding Super Duplex Steels.

Inox - 4462 Another excellent electrode developed for welding Duplex Steels.

Nicomolycord-650M A specially developed welding electrode for reclamation and rebuilding of forging dies in the automobile industry.

Cromotig-Ni2 Copper coated solid wire for TIG Welding of carbon manganese steels demanding sub-zero toughness.

Diecord-5500 A hardfacing electrode for repair welding of hot working dies and other related tools.

Tenacito-65 R (Spl.) Electrode developed specially for fabrication of Vessels and components for nuclear applications.

Citorail III Q A low cost all position welding electrode for making high abrasion-resistant overlays.

SPDF-0072 Excellent electrode for joining armoured material used for fabricating T-72 Vijayanta Tanks.

O-2061 An open arc self-shielded welding consumable of the 30/10 type developed for welding armour used in combat vehicles.

E-108K Unique electrode for welding similar / dissimilar steels.

E-125 HMT Electrode for welding hydraulic lift gears and shifting forks.

OP 121 TT Outstanding SAW flux for narrow-gap welding.

Automelt B 71 Basic SAW flux for achieving low temperature toughness suitable for multipass welding.

GTAW Solid Wires Widest range of code embossed wires for TIG welding applications. Consistent performance resulting in high productivity.
