### DIVIDEND

In view of loss, your Directors do not recommend any dividend on 2% Preference Shares and on Equity Shares.

### OPERATIONS

Sales/Income from operation was Rs. 106.62 crore compared to Rs. 216.65 crore in the previous year. Production was 7250 MT compared to 18820 MT in the previous year. Decline in sales and production was mainly due to temporary suspension of work at the Company's main unit i.e. Wellington Jute Mill (WJM), Rishra from 26 March, 2016 to 16 September, 2016 and also on account of sale of Anglo-India Jute Mill (Middle Mill) at Jagatdal w.e.f. 1 May, 2016. Temporary suspension of work at Wellington Jute Mill had to be declared due to acute raw jute shortage in the 1st half of the year under review which also affected the entire Jute Industry and also on account of low productivity at the unit compared to Industry norms. On reopening of WJM from 17 September, 2016 production started in phases after cleaning and overhauling operations. Exports sales was at Rs 32.32 crore as against Rs. 49.74 crore in the previous year. Lower export sales also was due to the reasons mentioned herein above. Management Discussion and Analysis Report which is annexed and part of this Report covers further details on performance.

## **MANAGEMENT DISCUSSION AND ANALYSIS REPORT**

### **A. Industry Structure and Development:**

In the 1st half of the year under review, Jute Industry suffered because of acute shortage of raw jute resulting in abnormally record high raw jute prices reaching upto Rs. 65000/- per MT thereby making the operations unviable and leading to production cuts in the Industry. On arrival of new jute crop from August/ September, 2016 availability of raw jute improved considerably resulting in substantial easing of raw jute prices by almost 30 -35% from its peak level making the operations viable for the Industry which was supported by strong Government Demand for 'B' Twill bags.

### **B. Opportunities/Threats, Risks & Concerns:**

#### **■ Opportunities**

Availability and prices of raw jute currently is comfortable and coupled with the strong Government demand for "B" Twill Jute Bags, operating cycle appears be favourable for the Jute Industry barring unforeseen situation. Moreover Government of India has imposed anti dumping duties on import of finished goods from Bangladesh/Nepal thereby providing pricing support to the Indian Jute Industry beside by offering additional export incentives, Government has made jute goods exports competitive in the international market. As of now there is an opportunity for the Industry to take advantage of the positive operating cycle in the industry and your Company is also making all efforts to enhance production at its operating units as well as focus on manufacture of value added diversified jute goods for which there is a good demand in the export market. Wherever feasible your company is also trying to increase its merchandise exports so as to service its established international customers.

#### **■ Threats / Risks and Concerns**

Currently Industry is facing shortage of skilled man power resulting in curtailment of production in spite of abundant availability of raw jute with good demand both domestically and internationally. As such there is a need for augmenting the supply of skilled manpower for the Industry with the support from Government Authorities as well as by the Industry body otherwise going forward scarcity of man power in the industry may become more acute.

Low productivity in the industry continues to be an area of concern. As such for long term survival of the industry, it is imperative that a productivity linked wage structure be devised in consultation with labour unions otherwise the industry will gradually loose its competitiveness compared to alternate products. At the same time industry needs to take steps for installing new generation efficient machines requiring lower man power in place of existing old generation machines.

### **C. Outlook:**

Carry over from last year, crop is estimated to be higher and as of now there is a possibility of another good crop in the coming season. Government demand for procurement of "B" Twill bags continues to be good and with the prediction of another year of normal monsoon it is expected that demand for packaging of food grains continue to be strong. Export demand is also reviving due to increase in incentive by the Government of India.

Your Company after having sold Anglo-India Jute Mill (Middle Mill) w.e.f. 1st May, 2016 is taking steps to enhance production at its existing manufacturing units as much as feasible, however such efforts of the Company is hindered by shortage of skilled man-power.

Your Company having several prime parcel of non core properties/ assets which have been built over a period of 3/4 decades is also continuously exploring the possibilities of monetizing one or more such assets so as to reduce its debt obligations and consequently interest cost which ultimately will improve the overall financial position and bottom line of the Company. Off late overall economic scenario in the country has started looking up and it is expected that going forward such efforts of the Company towards monetization of non core asets may yield some positive result.

### **D. Internal Control System & Adequacy:**

The Company has a proper internal control system in place across all its operations. Internal audit work

has been assigned to a professional firm of Chartered Accountants who have expressed satisfaction about the adequacy of internal control systems and procedures followed by the Company. The Audit Committee reviews the observations of the internal auditors and implementation aspects on a regular basis.

**E. Financial & Operating Performance:**

Sales / Income from operation was Rs. 106.62 Crores compared to Rs. 216.65 Crores in the previous year. The production was 7250 MT compared to 18820 MT in the previous year. Decline in sales and production was mainly due to temporary suspension of work at the Company's main unit i.e. Wellington Jute Mill (WJM), Rishra from 26th March, 2016 to 16th September, 2016 and also on account of sale of Anglo India Jute Mill (Middle Mill) at Jagatdal w. e. f. 1st May, 2016. Temporary suspension of work at Wellington Jute Mill had to be declared due to acute shortage of raw jute in the 1st half of the year under review which also affected the entire Jute Industry and also on account of low productivity at the unit compared to Industry norms. On reopening of Wellington Jute Mill from 17 September, 2016 production started in phases after cleaning and overhauling operations. Export sales was at Rs. 32.32 crore as against Rs. 48.74 crore in the previous year. Lower export sales also were due to the reasons mentioned herein above.

**F. Material Development in Human Resources/Industrial Relations Front:**

The Company continues to rationalize its workforce and put emphasis on providing quality training under the Company's programme.

Yarn Unit and Libra Carpet Unit located at Choudwar, District Cuttack, Odisha, Yarn and Weaving Unit at Konnagar continued to be under suspension of work.

Main unit Wellington Jute Mill at Rishra was under temporary suspension of work from 26 March, 2016 to 16 September, 2016 due to severe shortage of Raw Jute and low productivity at the unit compared to Industry standards. Yarn Unit at Rishra was also under suspension of work from 21st March, 2016 till 31st October, 2016. Weaving unit at Rishra continues to be under work suspension from 23 May, 2015.

**G. Cautionary Statements:**

Certain statements in this report may be construed as forward looking statements which have been made as required by laws and regulations, as applicable. There are several factors, which would be beyond the control of management and as such, may affect the actual results, which could be different from that envisaged.

## **ANNEXURE TO THE DIRECTORS' REPORT**

Information as per Section 134(3)(m) read with Rule 8 of the Companies (Accounts) Rules, 2014 and forming part of the Directors' Report for the year ended 31st March, 2017.

**A. CONSERVATION OF ENERGY**

The Company continues its efforts to conserve energy and has taken the following steps on ongoing basis:

- a. Replacement of Conventional Fluorescent Lamps with Light Emeidie Diode (LED) type lamp fittings.
- b. Replacing in phased manner High Power Sodium Vapour lamps by Metal Halide Lamp.
- c. Mounting of spinning motors outside machine frame.
- d. Putting variable frequency with driving looms.
- e. Taking care for maximum utilization of energy and to reduce the energy consumption, capacitors have been installed in every department to improve power factor and always try to maintain it to 99% to reduce losses. All motors, electrical & electronic equipments and machine parts are regularly checked and maintained to reduce losses.
- f. Regular checking and maintenance of Steam pipe lines, valves, steam traps to reduce the loss of steam and finally consumption of fuel in the Boiler.

Continuous monitoring of system voltage and power factor to minimize losses, follow rigid routine preventive / proactive maintenance schedule of machine, use of energy efficient motors, elimination of idle / under loading of machines.

Constant efforts are being made to identify new technologies to improve the working of the plants for reduction in consumption of energy and cost of production.
