OPERATIONAL PERFORMANCE

The Sales Turnover for the year increased by 26.31% from Rs. 278.380 million to Rs. 351.63 million. The Net profit decreased to Rs. 0.078 million as compared to previous year which was Rs. 0.181 millions.

However the Company's financials are very strong as the Company has no long term loans.

MANAGEMENT DISCUSSION & ANALYSIS**INDUSTRY STRUCTURE AND DEVELOPMENT & OPPORTUNITIES:**

AksharChem is an acknowledged leader in the area of Vinyl Sulphone and is in a position to manufacture large volumes of this important building block in a wide range of Dyes forms. Overall, the Dyes & Intermediates industry is characterised by a high degree of fragmentation and the excess capacity thus created has resulted in aggressive competition resulting in pressure on its gross margins.

With chemicals getting commoditised, the need for cost efficiency is driving businesses to look at India as a global source of supplies with renewed interest. Given a favourable cost position, there will be increased opportunity for manufacture of many items from the developed countries to move to India.

With the ambitious growth prospects Indian chemical industry is aspiring to multiply total revenue from present \$ 28 billion to \$ 100 billion by 2010. Similarly, the Indian dyestuff industry can realistically aim to realise about 10 percent share of the world market in next five years and look forward for realizing US\$ 2 billion revenue by the year 2010. In the wake of these developments plenty of opportunities exist for positioning the industry to cater to the demand of growing domestic markets by modernizing the plant to cater to environmental relations and setting up of development facilities to offer research oriented performing products.

Availability of large pool of efficient technical manpower with excellent management skills presents a promising global opportunity for Indian industries. Indian can emerge as major player in global opportunity for Indian industries. India can emerge as major player in global markets providing cost effective quality products and reposition itself to provide solution, develop global scale of operations and compete with other suppliers like China.

The inherent strength of Aksharchem driven by its core value to create customer focused organisation and its experience of working together as partners in progress with its customers for over 15 years provides opportunity to the Company to position itself as a strong player in growing markets by leveraging its well-developed research and development facilities, technical manpower, support and reputation of being a quality conscious supplier.

THREATS, RISKS AND CONCERNS

Indian exports are suffering due to high cost of inputs and utilities, increasing cost of finance, unfavourable import duty, inefficient logistics & infrastructure, uneconomical size of operations and low focus to research and development activities. Improvement in competitive strength requires high degree of customization and world class services.

Moreover today almost all the businesses face a tangible threat from lower cost alternatives imported from China. Chinese products are highly competitive both on account of a better raw material cost position and economies of scale.

Price instance in the local market accompanied by the continuous escalation of raw material prices and input costs has relentlessly squeezed margins in the Dyes & Intermediates. The volatility of Rupee and the inequitable indirect duty structure are an additional cause for concern.

FUTURE OUTLOOK

The outlook is positive despite a very competitive environment. While the quality of our products is world-class we are facing a considerable price resistance, particularly in the International markets. AksharChem is making all efforts to reduce its cost base to ensure that we do not lose our market share due to price resistance. Market trends indicate a change in usage pattern from moderate quality products to high performance ecologically safe pigments and intermediates. We will increasingly cater to segment that is more quality conscious this segment.

There is good opportunity for servicing large market domestic as well as abroad provided that the additional cost on account of higher crude oil prices and duties can be offset by the several internal cost saving measures that are being implemented.

INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY

The Company has effective internal control systems commensurate with the size of the Company. This is further supplemented by an internal audit being carried out by an external firm of Cost Accountants. The internal auditors conduct audits of the performance of various departments, functions and locations and also statutory compliances based on an annual audit plan. They report their observations/recommendations to the Audit Committee of the Board of Directors which comprises three non-executive Directors. The Audit Committee reviews the audit observations and follows up on the implementation of the suggestions and remedial measures and also recommends increased scope of coverage, if necessary.

CAUTIONARY STATEMENT

Statements in this Report, particularly those which relate to Management Discussion and Analysis, describing the Company's objectives, projections, estimates and expectations may constitute "forward looking statements" within the meaning of applicable laws and regulations. Actual results might differ materially from those either expressed or implied, because of various factors like Government policy, competition, exchange rate fluctuations etc.

FOREIGN EXCHANGE EARNINGS AND OUTGO

The Foreign Exchange Earnings of the Company from direct exports amounted to Rs. 279.587 million (previous year - Rs. 245.77 million). However during the period under review there was no outflow in the foreign exchange.

SAFETY AND ECOLOGY

Your Company continues to exercise persistent and meticulous efforts towards greener earth and environment conservation. The Company perseveres in its efforts to teach safe and environmentally accountable behaviour in every employee, as well as its vendors. Company is committed towards safety, not only of its own men and plants, but also of the society at large.

Safety records showed considerable improvement and Zero accident target is almost achieved. This was made possible by strict adherence to laid down procedures and following of international guidelines.

Solid Waste, generated at Works, after the treatment of its liquid effluent is sold to reputed Cement manufacturers.

The Company continues to demonstrate its commitment to a clean and safe environment. The state of the art effluent treatment plant continues to run satisfactorily, so that the treated wastewater discharged, is well within the stipulated norms set by GPCB.

Your Company has obtained the ISO 14001:2004 certification in the financial year 2007-08.

ANNUAL REPORT 2006-2007

ENGINEERING

In our continued quest for alternative sources of energy due to escalating costs of purchased/produced energies, the plan of using agro waste in place of furnace oil is being implemented. Another project with considerable progress is the re-circulation / conservation of water. At some of the processes, water re-circulation and reuse has been introduced this year.

Equipment downtime due to breakdowns has considerably reduced due to strict adherence of preventive maintenance schedules, which in turn increased operational efficiency and reduced costs.

RESPONSIBILITY STATEMENT:

To the best of their knowledge and belief and according to the information and explanations obtained by them, your Directors make the following statement in terms of Section 217(2AA) of the Companies Act, 1956:

- (i) that in the preparation of the annual accounts for the year ended 31st March, 2007, the applicable accounting standards have been followed along with proper explanations in case of material departures;
- (ii) that such accounting policies as mentioned in Schedule 20 of the Annual Accounts have been applied consistently and judgements and estimates that are reasonable and prudent made so as to give a true and fair view of the state of affairs of the Company at the end of the financial year ended 31st March, 2007 and of the profit of the Company for that period;
- (iii) that proper and sufficient care has been taken for the maintenance of adequate accounting records in accordance with provisions of the Companies Act, 1956, for safeguarding the assets of the company and for preventing and detecting fraud and other irregularities;
- (iv) That the annual accounts for the year ended 31st March, 2007 has been prepared on a going concern basis.
