The Company registered a Profit before Financial Costs, Depreciation & Taxation of Rs. 2872.88 Lacs (excluding income from exceptional items) as compared to Rs. 2537.60 Lacs (excluding income from exceptional items) recording a growth of 13.21%, whereas Net Profit at Rs. 650..32 Lacs as compared to Rs. 577.32 Lacs the previous year, which shows an increase 12.64%. The top line growth was possible due to the business growth in the beverage industry as a whole. However, despite of stiff competitions and financials costs, the company has registered an increase in the profit margins. The growth in the beverage industry is expected to maintain this year with contributory benefits accruing to the packaging business of the Company like previous year.

#### **Textile Business:**

The market scenario for the textile industry in the country as a whole remained continuously discouraging. The Company remained on the same policy of putting on hold the Textile project.

#### Real Estate Business:

The real estate market of the country has started picking up. Development of Commercial Complex at the land of Company's subsidiary AMD Estates & Developers Private Limited situated at Sector-114, Gurgaon, Haryana has been started in which Company also holds interest. The said development is being carried out by VSR Infratech Private Limited, New Delhi with which AMD Estate & Developers had entered into a Collaboration Agreement for the said development. In coming years this project will also contribute towards revenue.

#### DIVIDEND

Your Directors are pleased to recommend a dividend of Re. 1/- (One) per equity share of face value of Rs. 10/- each for the financial year 2011-12. #### FIXED DEPOSITS

During the financial year 2011-12, your Company has not invited or accepted any deposits from the public within the meaning of provisions of Section 58A of the Companies Act. 1956.

#### MANAGEMENT DISCUSSION AND ANALYSIS

Your Company has put in efforts and strengthened its place in terms of Country's share for providing packaging range to the soft drinks and other beverages industry. Company's plants at both the places, i.e. at Ghaziabad, Uttar Pradesh and Neemrana, Rajasthan, are in operations.

Your Company continued catering to the packaging needs of Beverages Industry of the country by way of supplying packaging for carbonated soft drinks (CSD), mineral waters, beer etc. Major chunk of Company's supply remained to beverages Industry which is growing at about 18% per annum and alcoholic beverages industry mainly beer which is growing at a rate of about 10% per annum. The Company is looking to new market segments such as fruit juices, milk products, edible oil etc. and other cosmetics items which is slowly moving to packaging items remained the same and your Company is capable of manufacturing of those packaging. Your Company therefore, expects development of new market segments in the years to come and making continuous efforts in that direction.

Due to adverse market scenario of Textile Industry in India, the project undertaken by the Company for setting up of integrated Textile Unit at Distt. Haridwar, Uttarakhand has continued to be kept on hold for the time being.

The real estate sector has been picking its' growth for some time now. The development of commercial complex at the land of Company's subsidiary AMD Estates & Developers Private Limited situated at Sector 114, Gurgaon, Haryana for which the said subsidiary had entered into a collaboration agreement with VSR Infratech Private Limited, has been started in which Company holds interest. In coming year this will also contribute towards the Company's revenue.

#### INDUSTRY SECTORS

#### PACKAGING

The packaging industry supplying packing solutions to beverages industry are mainly divided into two formats viz., PET Bottles and Glass Bottles.

PET Bottles are also divided into two segments such as Plastic Closures and PET Preforms. Plastic Closures are mainly used in CSD PET Bottles for beverages, mineral water and juices. The requirements of closures with respect to design and quality depend upon the need of the end-user. PET Bottles required by the Beverages Industry are being manufactured & supplied by the Packaging Industry in Preform shapes and being blown-up at the time of filling beverages. Various other end-users have also started using plastic bottles as packaging medium. The usage of PET Bottles shows an increasing trend in products like edible oil, personal care products, pharmaceuticals and confectioneries. The usage of PET Bottles in Alcoholic Beverages Industry is also on the rise.

Glass bottles used as a packaging item requires crown caps as closure. Your Company manufactures Crown Caps which are mainly used as metallic closures for various edible items packed in glass bottles e.g. Carbonated Soft Drinks, Beer, Juices, Sauces, Ready-to-drink Milk products etc.

#### **REAL ESTATE**

The Real Estate market is mainly divided into two zone one is the residential and the other is commercial. Your company possesses interest in Commercial land.

#### OUTLOOK

#### PACKAGING

The Overall Beverage Packaging Industry is growing at over 12% per annum. The continued trend of shifting customer base from glass bottles to PET Bottles is being seen in a positive note.

#### Segment Wise/Product Wise Review

#### **CROWNS CAPS**

The use of glass bottles has been seen steady or little bit de-growth whereby the use of Returnable Glass Bottle (RCB) has been seen in reducing trends. Due to which crown market has been recording a sharp negative growth as a packaging tiem. In order to offset this, your Company is making vigorous efforts to explore the export market. This has recorded in the export sales increase from Rs. 18.50

Crores (in previous year) to Rs. 34.94 Crores in the year. Efforts are being continued to increase the share of exports further.

However, AMD remained one of the dominant players in the crown caps market having approx. 15% market share during the year under review.

#### PLASTIC CLOSURES

The plastic closure market has been continuously getting its momentum due to increased usage of PET Bottles. The organized market is still dominated by the CSD but it is expected that other usage will also form significant share of the over all market. The demand of plastic closures will increase in segments where PET Bottles are gaining foothold as packaging media like water, juices, edible oil etc.

#### **PET PREFORMS**

With the expansion of putting up of one line of Preform at works at Neemrana, Rajasthan the Company's market share in PET preform market has also increased and after its successful start, the Company has planned to install 6-PET Preform line at its same works and expect to install the same by the end of October, 2012. It will further increase the productions capacity of the Company. The packaging Industry in PET segment has been growing by over 15-20%.

#### Risk and Concerns

#### PACKAGING

Increase in raw material cost and pressure on margins have a bearing on the profitability of packaging industry in totality. The Company is likely to be affected by change in governmental policies related to usage of end products.

However, the Company has established itself as quality supplier to its clients and is accepted as reliable player in the industry thereby not only retaining its base but increasing it as well.
