The Company is mainly doing finance business and running a wind energy generation plant (wind mill). There is stiff competition among major NBFC companies in finance sector, but due to long history and good background of the customers give preference to the company. Your company continued to secure improved business as compared to the last year which is due to timely adoption of prudent business strategies, measures taken to reduce cost of funds and cost of operations, improved fund management and effective steps taken to maintain the level of the company. Your company has also strengthened the position by simultaneously operating wind mill in Rajasthan with finance business.

OPPORTUNITIES AND THREATS:

According to the management of the company, the company is financing to parties having good potential aspects. And with respect to wind mill unit the company is supplying power generation to Rajasthan Power Procurement Corporation & which is a government sector, hence there is much less risk on account of financial matter & apart from this, it is supplied under Agreement.

Further, a major threat appears to be on account of further reduction in interest rates, if any, trends in take over of loans etc. which might affect the profitability of the company. However your company is confident of facing the challenges and is optimist about the sustenance of this finance segment for quite a long time.

RISK AND CONCERN:

Though the management of company is quite meticulous about the security and recovery aspect of each finance file which reflect from the fact that the overall NPA recognized by the company is Rs.NIL/-.

Your company will continue to adopt strategies to register significant increase in business volumes and would still more concentrated efforts to initiate a new wind mill project.
