The success and prestige of Ansal API began as the dream of one man that later transformed into the dream of many. We endeavor to open new vistas in the field of realty that far exceed the expectations of our patrons. All geared up for the future, we have the key factors for success necessary to withstand the winds of change. Recently Ansal API initiated 'Green Power' revolution and became the first in the realty sector to use non-conventional energy sources like solar power for lighting and heating purposes, and bio-diesel for generators. With the aim of further diversification to reach other local and regional markets, we have a bouquet of SEZ projects. We build and maintain trust, integrity and transparency in every project we undertake, to extend further our credibility across the global market. This is demonstrated through our association with renowned groups like Deeyar, and UEM, Malaysia's largest conglomerate. These liaisons will bring more advanced technology and engineering acumen to the company. With our well-recognized market presence with a strong portfolio in lifestyle, hospitality and entertainment segments, you can keep expecting more from us. Needless to say, we will continue to strive and accomplish our dreams and goals to usher in a resplendent future.
