A withdrawal of Rs. 0.36 lacs has been made for diminution in value of investment and current year taxes including deferred tax and fringe benefit tax amounts to Rs. (329368) lacs. The loss after above provisions and brought forward loss of Rs. 31.46 lacs of previous year(s) is Rs.65.06 lacs which has been carried to the Balance Sheet. Your Company's unsecured borrowing is Rs.858.43 lacs as against Rs. 853.40 lacs in the previous year. The Company does not have any secured loan. The recovery suit filed by the SBI Commercial and International Bank Ltd. against the Company before Debt Recovery Tribunal Mumbai for recovery of a disputed loan has been settled and no amount is due to any bank or financial institution.

RESOURCES AND LIQUIDITY :

The Company, as in the past, is not relying on any borrowing except unsecured loans. More so, due to reduction in its activities, the requirement of fund has been reduced substantially.

INDUSTRY STRUCTURE AND DEVELOPMENTS :

Your Company being non banking finance company has been categorized as investment company by the Reserve Bank Of India as the investment business of the Company is higher than any other business carried by the Company. Till the year 2007, investment and trading in shares was quite profitable as the economy of the country was growing at substantial pace. During the year 2008 this business has become quite risky due to volatility in the stock market. The other business of your Company of leasing & hire purchase has been virtually stopped. The finance companies either have diversified their activities or are doing investment business or engaged in other finance related services.

BUSINESS REVIEW :

Your Company being classified as an investment company is doing long term and short-term investments. It is also trading in the shares and securities of other companies. The Investment business of the Company is not generating enough profit to give the appropriate return to the shareholders of the Company. It is management endeavor to increase the Company's earning so that an appropriate return is provided to the members of the Company.

OPPORTUNITIES :

With the change in world economic scenario, the Indian economy has emerged as one of the strongest economy in the world. The yearly GDP is 7% to 8% and it is expected that the same will, in the near future, may rise above this bench mark. It is expected that India with China will emerge as the biggest economic power in Asia. This change has already brought in various opportunities for all sectors and will create more in the near future.

CHALLENGES :

Your Company being in the financial services sector is facing a very stiff competition from public sector as well as private sector banks and financial institutions. It is trying to cope up with the same but is finding it difficult to match up with them in expertise as well as finances available. However, the Company is trying its level best to achieve the same level of competence to meet the challenges thrown in this sector.

OUTLOOK :

The outlook for the Non-Banking Finance Companies engaged in financing business is not very good. Due to the increasing inflow of funds from abroad and the liquidity available with the major private and public sector banks, the future of finance companies is very bleak.

RISK AND CONCERNS :

Your Company at present is exposed to the normal industry risk factor of volatility in interest rate, economic cycle and credit risk. It has not yet decided its future course of activities as activities of Leasing, Hire Purchase and Bill Discounting have reduced substantially and is negligible. The losses suffered from these activities have already been accounted for in the previous years. The impact of new activity, as and when decided, will be known in the future.
