For Exemplary Growth In 2011

CHAIRMAN'S LETTER TO SHAREHOLDERS

Dear Members,

It is with great pleasure that I present to you the 42nd Annual Report of your Company, Aries Agro Limited.

2011-12, the year under review in this Report, once again highlighted the dependence of the agri business sector on weather conditions. The Kharif (summer) season began about a month late due to delayed rains. But the season received adequate rainfall over all. As a result, the first half of the financial year showed positive growth and healthy demand for the entire range of products. However, this was followed by highly unlikely situation of an extreme cold wave during the Rabi (winter) season. This cold wave conditions resulted in several crops across all Northern and Central states being affected due to crop dormancy and frost attack. Productivity was adversely affected. The winter season did hamper our growth plans as a result of this new uncertainty. Despite this, the Company's revenues increased by 16% percent in the second half of the year. Though for the sake of improving demand additional trade schemes and discounts were offered to retain market share affecting profitability in the fourth quarter.

The highly erratic supply position and increased rates of Urea and DAP fertilizers added to the demand for the Company's range of NPK Water Soluble Fertilizers. It must be noted that the margins on NPK Water Soluble Fertilizer are lower than micronutrients and secondary nutrients as a result of which increased sales in this segment (especially in the second half of the year) did have an impact on overall margins. In addition, the Company also scaled up its efforts to sell to large institutions. Institutional business though lower in profitability, is strategically important to expand our overall market share.

The year under review showed an increase in interest costs by Rs. 8.26 Crores and this represents an increase of 65 percent. We recognize that a move to non-funded sources of working capital and also maintaining inventory of only key products which constitutes the majority of the business of the Company is an alternative to reduce this drain on the Company's profitability due to increase interest costs. The rising costs of raw materials, fuel, processing, labour and interest rates continue to remain a source of concern and have impacted the Company during the entire financial year. We have been able to counter this inflationary pressure partially by cost control on production and administrative costs.

Delivering on the goal of an agriculturally progressive and self sufficient nation needs the agriculture sector to be transformed with and by youth, skills, knowledge and endless persistence. **Aries and Institute of Technology and Management (ITM) Trust have entered into a Memorandum of Understanding (MoU) on February 14, 2012 to work together towards the launch of a specialized ITM-Aries Agro PGDM Programme in Agribusiness Management.** The first batch for this programme will begin on ITM's campuses soon.

We were awarded **"Certificate of Excellence" in recognition of our Exemplary Growth** – in this year's Inc India 500 ranking of India's 500 fastest-growing mid-size enterprises. Inc. India 500 is an offshoot of the annual Inc. 500 Awards: "Est. in 1982 in America. Inclusion on this list is a mark of entrepreneurial success and elevates our company above its competitors and is a proof of the talent, drive and hard work our team have brought to our business

Your Company is in the process of launching 2 new products during 2012-13. This includes Zincated Sulphur Bentonite and EDDHA range of chelates. In addition, the Company will also be expanding its presence in new markets like Kashmir, Kerala, Manipur and Goa. It will also be focusing on more products for specialized crops such as cardamom, saffron and apple. The Company will be progressively phasing out 10 products which are very similar to existing products in the range to avoid some amount of duplication and reduce the number of stock keeping units in our inventory.

Your company's wide product range matches the world's best and biggest plant nutrition companies. This vast range of cost-effective, world class products serves as a major differentiator as it provides Aries farmers with the widest choice of customized plant nutrients, tailor-made for his crop and soil specific needs. With very minimal advertising the company maintains that its farmers are its brand ambassadors and targets all its activities to build this ecosystem.

We have also been actively participating in Government Tenders under the National Food Security Mission and other State and Central Government Schemes. Some of our products including Aries Endomyco, Chelamin and Agromin have been included in various Government schemes and this is a positive development. We are also pursuing institutional business with seed companies, nurseries and plantations

International sales have commenced in 6 countries with supplies from Indian and UAE factories. Distributors have been appointed in 4 countries and we expect export and global sales to continue to grow rapidly

With increasingly erratic weather trends, the outlook for the year 2012-13 seems neutral. We are taking steps to ensure that uncertainty has a minimal impact on your company's growth and profitability. Your Company's extensive distribution network, diversified product portfolio, reach to varied climatic areas and realignment of focus on crops that will realize better prices will definitely have a beneficial impact on your company's growth and profitability.

I would like to thank each one of you personally for your confidence in Aries. Together, we will ensure that your company grows further in the year ahead.

Sincerely,

Dr Jimmy Mirchandani
Chairman & Managing Director
