CHAIRMAN'S MESSAGE

Dear Esteemed Stakeholders,

Greetings!

As I recount the journey of our Company in the fiscal year 2022-23, I'm reminded of the profound words of Swami Vivekananda, "Arise, awake, and stop not till the goal is reached." This mantra has been our guiding light throughout the challenging year, a testament to our unwavering resilience and enterprising spirit.

Indeed, it was a year that has stretched and expanded our capabilities like never before, testing us in ways we could not have anticipated. We utilized these challenges to learn from them, to ascend, and explore uncharted territories. The resilience and ingenuity of our team have been our compass, navigating us through adverse landscapes.

Through the year we focused on our strategy with meticulous dedication, consolidating our strengths, fulfilling commitments, and replenishing the trust of our clients in our capabilities. As A.P.J Abdul Kalam wisely said, "You have to dream before your dreams can come true", we dreamed, dared and delivered, achieving the completion of many ongoing assignments.

Our journey was further punctuated with proud "firsts". Our Nagpur facility fabricated an unprecedented 8447 MT of steel structures, a record-breaking achievement since its establishment. The Nashik facility, crossing the milestone of 100 Crores mark in order booking, is another feather in our cap, with a significant order from the Adani Group. Similarly, our direct orders from GRSE for shipbuilding mark a notable achievement for our Company.

We cannot ignore the complexities that unfolded in our industry across India, unforeseen challenges sprung from project executions, primarily due to the non-availability and migration of manpower. We took each of these obstacles as a steppingstone, learning the art of optimal resource handling, a key to our success.

Tata Projects has been a pillar of strength, providing unwavering support within the ambit of related party transactions. Their faith in us has been a testament to our integrated virtues and principles and our pride in being a part of the national growth narrative.

As we align ourselves with India's shift towards cleaner and greener energy, we see a horizon laden with immense opportunities. We are preparing ourselves to seize these opportunities, identifying and manufacturing key components to position ourselves as a part of the supply chain to contribute to this sustainable revolution.

Furthermore, with growth surging in Infrastructure, we foresee expanding avenues in fabrication Works. To cater to these needs, we are exploring collaborative associations to fuel our growth.

We strongly believe that our potential is boundless. With our experienced leadership team, the expertise of our workforce, and our adaptability and resilience, we are poised to continue our upward trajectory.

I extend my heartfelt gratitude to the members of the Board for their unwavering support and encouragement, and to our Management team. Your trust and faith in us are what fuels our journey forward.

I express my sincerest appreciation to our valued customers, stakeholders, bankers, suppliers, and subcontractors for their trust and partnership with us. I also take this opportunity to thank our people, who have helped us navigate through this period through their hard work, dedication and passion.

As we stand on the cusp of another exciting year, full of promise and potential, let us remember the words of Ratan Tata, "I don't believe in taking right decisions. I take decisions and then make them right." With this spirit, we look forward to moving ahead, ushering in an era of growth and development.

Onward and upward, we go!

**Yours Sincerely,
Vinayak Pai**

MESSAGE FROM CEO

FORWARD-LOOKING STATEMENTS

This document contains certain forward-looking statements based on the currently held beliefs and assumptions of the Management of the Company, which are expressed in good faith, and in its opinion and judgment, are reasonable. For this purpose, forward looking statements mean a statements, remarks, or forecasts that address activities, events, conditions, or developments that the Company expects or anticipates which may occur in the future. Because of the inherent risks and uncertainties in the social and economic scenarios, the actual events, results, or performances may differ materially and substantially from those indicated by these statements. Artson Engineering Limited (the Company) disclaims any obligation to update these forward-looking statements to reflect future events or developments.

Navigating through Chaos

The term 'Black Swan event' started making rounds during the financial crisis of 2007/08, a low probability, high impact event that can cause chaos with its consequences. Around the same time in FY 2007-08, our Company was going through a crisis of its own – and staring at business closure. But, like a phoenix, it emerged stronger with the Tata Group stepping in as promoter, while maintaining the listed entity status of the Company.

In the 2010s, people started talking of a VUCA world...Volatile, Uncertain, Complex and Ambiguous. Nothing felt certain anymore and imagine this was even before Covid 19 and surprises haven't stopped coming since then. Come 2023, people don't talk Black Swan or VUCA anymore. I believe that is because when things start getting too complicated is when you are better off going back to basics and focus on doing what you can with what you have and where you are and work for a better tomorrow. The same holds true for organizations as well.

As a manufacturing and projects focused organization, Covid 19 and associated lockdowns did not automatically translate to work from home. Our teams were working through the pandemic at the fabrication yard in Nagpur, the factory in Nashik, Garden Reach Shipyard in Kolkata and various project sites including IOCL Paradeep, NTPC Talcher and Vallur, ONGC Kakinada, amongst others. This was at a time when a lot of our clients themselves were facing a demand slowdown and had deferred a lot of capex. So, there was a triple whammy for organizations like us, time and cost over runs on ongoing projects, slow down in fresh project intake and talent retention-overhead balancing.

I am proud to say that we weathered the storm, battered and bruised – but still standing. It helps to have a strong promoter, customers and stakeholders who believes in you. As we have come a quarter through 2023, the disruptors that we witness are all seen as major opportunities for a Company like ours. Be it the push for supply chain resilience by making in India, the billions of dollars committed towards fighting climate change – and the re-emergence of the hydrogen era or the rediscovery of river navigation.

Most companies in our promoter group have similar 'origin stories'. Years of tumult and struggle – while staying aligned with their north star and then a fairy-tale growth story! Our Company too intends to stay aligned to its core of manufacturing and tankages, while making strategic moves like shipbuilding – that are aligned to our core DNA of nation building. We plan to focus on the five fundamentals: People, Productivity, Profitability, Predictability and Partnerships.

In this financial year, our focus would remain on creating the right structure and getting the right people that can help us thrive. We will continue to track simple metrics that help us measure, report and improve our productivity and profitability. We will invest in making our business outcomes more predictable by focusing on creating a healthy backlog and getting better at planning, execution and tracking. Most importantly, we will get better at partnerships and collaboration within our organization, within our promoter group and also within the industry ecosystem. I am very positive that as we focus on the opportunities and strategies outlined above, the Company will move from strength to strength and will be a key pillar in nation building, by building things that last.

Yours Sincerely,
Shashank Jha
