Chairman's Letter to the Shareholders

Dear Shareholders,

In an operating environment that continued to remain challenging, I am pleased to report that we delivered another year of record sales and profits. The relatively modest growth in revenues to Rs. 233 crores during 2001-02 reflects the generally weak business conditions and the consequent pressure on volumes and pricing, emerging competitive pressures and our own strategic decision of not pursuing topline growth disregarding implications on the bottomline. We continued to strengthen our core competencies and our domination of the domestic automotive safety glass market remains intact. Our relentless commitment to lower costs, improve productivity and remove wastages at all levels contributed to healthy profitability levels. Profit after tax, at Rs. 11.86 crores, increased 49 % to scale a new peak.

While we have sufficient reasons to be happy with the growth achieved in our existing business, 2001-02 marks a landmark year in our corporate development as we acquired financial and management control of Floatglass India Limited, a leading manufacturer of float glass in India with sales of Rs. 244 crores in 2001-02. In a strategic move, Asahi Glass Company Limited, Japan, our technical and financial collaborator, transferred their 75 % stake in Floatglass India Ltd. to us effective February, 2002, to create India's largest combined glass entity. We are pleased to welcome all the stakeholders of Floatglass India Ltd. into the Asahi India fold. This acquisition further improves our competitive advantage, significantly expands our business platform and enhances our strategic position in the domestic glass industry.

Other significant accomplishments during the year include:

- Maintaining a strong growth momentum in the replacement market.
- Commencing supplies to all new models introduced during the year

including Maruti-Suzuki's Versa, Hyundai Sonata, M&M Scorpio, Honda Accord, Fiat Palio, Reva etc.

- Commissioning of low-cost self-developed CNC pre-processing lines.
- Receiving the Excellent Overall Performance Award (2000-01) from Maruti Udyog Ltd. (given to 10 out of the 400-odd suppliers).
- Receiving Performance Award and Certificate of Excellence from prestigious OE customers like Toyota Kirloskar and Ford India.
- Issuing bonus shares in the ratio of one share for every one share held.

During 2001-02, while growth in India's GDP is estimated at 5.4 % against the previous year's revised estimates of 4 %, sluggishness in the core and manufacturing sectors persisted. Passenger car production (including multi-utility vehicles), which had declined 6 % in 2000-01, stagnated during 2001-02 at 7.1 lakh units. Intense pressure from the OEs, however, kept price realisations weak. Our positive growth during the year is thanks to our superior technological capabilities, our comprehensive solutions and service capabilities and our focus on delivering added value for our OE customers.

Our exports during the year did not fare as well as we had hoped for due to the production shut-down at a key international OE customer. We are pleased, however, with our continued success in the replacement market - which now accounts for 19 % of our sales - and our ability to maintain overall margins, the escalating pressures on pricing notwithstanding. We remain fully focused on our customers' needs. We continue to prepare positively for the future by investing in growth, technological and quality advancements and efficiency improvements. We encourage our people at all levels to bring creativity and innovation to their jobs and are committed to building a world-class organisation.

We are embracing a new era of growth by consolidating our leadership position, strengthening our relationships, sharpening our technological edge and developing new products and platforms, leveraging upon our core strengths. Our acquisition of Floatglass India Ltd. is an important milestone towards our goal of spanning the value chain in the glass business in India. By building a more diversified business portfolio in the focussed area of glass and its applications and ceaselessly pursuing profitable growth, we are confident of building a stronger company that will consistently enhance value for our shareholders.

In closing, I would like to thank our customers, suppliers, collaborators, employees and shareholders for their continued support and faith in our Company. We look forward to continued progress in the coming years.
