ASHIANA ISPAT LIMITED

Naresh Chand Jain, Managing Director

Dear Shareowners,

I have great pleasure in extending you all a warm welcome. I am sure you will celebrate 60th Independence Day in a mood of exhilaration and joy. It is an occasion to rejoice in freedom and to pay collective homage to all those who sacrificed their lives to the cause. And best way to pay homage is to make our contribution in building such nation where each and every citizen must have basic necessity of life. It is the time to make our business socially responsible in how it impacts the environment, serves the community or helps create better world.

Dear friend I am delighted to inform you that year 2006-07 has been an exciting year for Ashiana Ispat Limited. It has been a year characterized by the process of business evaluation and change implementation. Throughout the year, we continued our shift toward a more focused, more effective, and more productive organization by examining current practices and establishing core initiatives for future which I believe will help us to achieve our key goals: better value for our shareholders, better service for our customers, and better employee relations.

I would now like to apprise you of the financial performance of your Company in the last year. We primarily manufacture Mild Steel Ingot, High Strength Deformed Bar (Saria), TMT Bar (Fe-415, 515,550 grade). The quantity of engineered steel bars manufactured by us represents a very small percentage of annual domestic production. But still we have succeeded to influence the market. The reason behind the continuous growth is due to having unparallel energy, enthusiasm, passion and excitement of the people here, and the sense that they can do anything. In our team everybody competes, not against each other, but against everyone in the marketplace.

Thank to the growth in demand and an unrelenting focus on quality and productivity, we have achieved excellent results.

- ♦ Sales grew by over 44.39 per cent to Rs.17002.58 lacs.
- ♦ PBDITA achieved for the year Rs. 475.54 Lacs (previous year 2005-06 Rs. 298.08 Lacs) was higher by 59.53%.
- ♦ Earnings Before Tax improved consecutively in a row to Rs.249.60 Lacs (previous year Rs.88.12 lacs) recording an increase of 183.25%.
- ♦ This strong performance contributed significantly increased in earning per share by 162.50%.

Scenario of iron & Steel Industry:

Consumption of stainless steel in India is much higher at 14 per cent, compared to the global consumption of 6 per cent in the last 15 years. Domestic consumption of finished (carbon) steel is on the rise, driven by a boom in the automobile sector and a nation-wide thrust on infrastructure and real estate. As per study done by the Credit Suisse Group says that India's steel consumption will continue to grow by 16 per cent annually till 2012, fuelled by demand for construction projects worth US\$ 1 trillion. According to IISI India has become the seventh largest steel producer in the world with an overall production of about 40 mt in the year 2006. The Government of India anticipates a three-fold rise in steel production capacity to 120 million tonne (mt) making India the second-largest steel producer in the world by 2016.

ASHIANA ISPAT LIMITED

To attain the revised projection of production of steel some of the impediments that need to be addressed include the additional costs pertaining to capital equipment, power and inefficiencies as this result in the erosion of the edge Indian industry would have otherwise enjoyed due to availability of cheap labour and raw materials.

The corporate outlook

We want to further consolidate our position as a world-class manufacturer of structural steel, and leverage this to achieve much greater sales, which ought to result in more substantial sales in domestic market. Our Vision is to make Ashiana a dominant player in the manufacturing structural steel in India. For this, we not only require further improvements in productivity but also need to develop partnerships with customers.

We, to achieve this goal have taken certain steps like up gradation of Plant by installing new Plant and Machinery during the year enabling the company to manufacture TMT Grade Fe-415, 500,550. This would enable the company to increase their market shares by making the availability of international standard of reinforcement TMT bar to the consumers.

With a robust economic growth, Indian Iron & Steel Industry has grown at a rapid pace in the last 3-4 years. Infrastructure sector has registered a significantly higher growth. This augurs well for the structural steel industry. I am accordingly optimistic about your Company's future. In India Share of secondary producer accounted for 67 per cent of the total production of finished steel, therefore, the growth momentum should continue. We can maintain double-digit growth. We can continue to increase our market share. And we will continue making the investments needed to upgrade the plant and expansion of the capacity.

Acknowledgement

I wish to place on record our sincere thanks to our all customers, dealers and distributors. My deep gratitude to the members of Ashiana Parivar, for their dedication in making Ashiana a strong enterprise, and to our Vendors, Bankers and Financial Institutions for their support.

Finally, my sincere thanks to my colleagues on the Board for their valuable advice and to you, our esteemed shareholders for your confidence in the management of the Company.

With regards

(Naresh Chand)
Managing Director
