23. MANAGEMENT DISCUSSION AND ANALYSIS:

I. INDUSTRY STRUCTURE AND DEVELOPMENTS:

Global economic activity continues to be weak, especially in the emerging market economies (EMEs). While the downside risks to recovery in some advanced economies have eased, major emerging market economies continue to contend with weak growth and still elevated inflation amidst tighter financial conditions.

India needs to address the infrastructure bottlenecks, further narrowing current account deficit, continuing fiscal reforms, improve governance with passage of the Bankruptcy Code. The various steps taken by the Government, including those aimed at ease of doing business in India and regulatory measures initiated by the Reserve Bank and other regulatory measures, would give enormous confidence to local & foreign investors, to do business with India

II. OPPORTUNITIES AND THREATS:

Pertaining to current scenario of all NBFCs have core focus, invested in various sectors thereby building service quality. Customers found comfort and confidence in their transparent practices and started shifting their loyalties from the unorganized sector to the organized sector.

Though our sectoral regulator has framed adequate regulations for regulating the sector, any future developments necessitating framing of additional regulatory framework, can adversely affect the growth and sustainability of this sector.

III. SEGMENT-WISE OR PRODUCT-WISE PERFORMANCE:

The Company is a Non Banking Finance Company (NBFC). It is engaged in the business of investment and lending which is the only segment in the Company. Hence, the results for the year under review pertain to only financing activity.

IV. RISK AND CONCERNS:

The Company has a strong Risk Management System for identification, monitoring, mitigation and reporting of the risks associated with its operations. The Company has an established practice of compliance reporting covering all operations and support functions; compliance reporting is periodically reviewed to ensure comprehensive coverage.

V. OUTLOOK:

The bull market in India looks to continue until 2022. A lot of money is getting diverted into emerging markets from the developed markets. Within the emerging market basket, India remains a very attractive destination for such funds because it is one of the fastest growing economies of the world. With the ongoing government reforms, many new investors are getting confident to enter the Indian economy for the first time. The above analysis on the economy will lead to very optimistic sentiments for equity investments, thereby leading to a surge in the Indian markets.

Our portfolio at Ashirwad "Ashirwad-200" remains strong, focused and varied yet balanced and is well on its way to deliver a dynamic performance for the next five years. We are excited to see how the macro model of the Indian economy benefits the micro, i.e. the results of the large cap Companies of India.

VI. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY:

The Company's internal control system is designed to ensure orderly and efficient conduct of its business, compliance with law and regulations including adherence to the Company's policies, safeguarding of its assets, prevention and detection of frauds and errors, accuracy and completeness of the accounting record, and the timely preparation of reliable financial information.
