CEO's Letter to the Shareholder

Dear Shareholder,

Starting the year 2007 on a positive note, the IT industry went on to reach greater heights in terms of revenue growth, employment numbers as well as maturity of service offerings. In the last two decades the Indian IT / ITES industry has contributed significantly to Indian economic growth in terms of GDP, employment generation and foreign exchange earnings, with export earnings of approximately US \$ 40 billion in FY08, a growth of 36%.

During the year several macro economic factors started influencing the Indian economy and more so the IT industry. The US Dollar had an unprecedented and rapid depreciation vis-à-vis the Indian Rupee, concerns on the slowdown in the US economy fuelled by the sub-prime crisis, inflationary trends etc. However, the impact of the current slow down is expected to be milder on the Indian IT sector than that witnessed in 2001 as Companies have shifted their revenue mix and have increased their exposure to non- US markets such as Europe and Asia-Pacific region.

The industry responded with maturity on all counts, pitching in to take on these challenges. India remains the core component of global out sourcing strategies and India base service delivery continues to expand in scope and scale. IT adoption in the domestic market is growing rapidly, supporting the rounded evolution of the sector and its growing role in the economy.

For ASM (consolidated) the growth has been quite satisfactory for the year ended March 31, 2008 with a consolidated group revenue of Rs. 688.32 million, registering a growth of 27% over the corresponding period last fiscal. The Consolidated EBIDTA was at Rs. 63.90 million, a growth of 50% year on year while the consolidated Net profits grew by 196% year on year.

As for ASM (standalone), the performance has been quite encouraging, registering a total revenue of Rs. 404.83 million for the year ended March 31, 2008, a growth of 35% over the corresponding period last fiscal. The Company registered an EBIDTA of Rs. 58.54 million, a growth of 55% year on year while Net Profit grew 207% year on year.

The Board of Directors, pleased with the performance of the Company, have recommended for approval of the members, a dividend of 7.50% on the par value of Rs. 10/- per share for the financial year 2007-2008.

During the year the Company signed a definitive agreement to acquire 100% of Enterprise Software Resources a US based firm, in an all cash deal. This acquisition was through ASM's wholly owned subsidiary in Singapore, Advanced Synergic Pte Ltd and financed by Indian Bank, Singapore. Enterprise Software Resources is a 10 year US based firm involved in strategic SAP consulting for Fortune 500 and SME Companies in the US. The acquisition has afforded ASM an opportunity to expand its offerings to a larger SAP client base in the US and thus broaden its revenue margins. The Company will continue to look for strategic acquisitions in the coming year.

In keeping with the plans for expansion of business the Company has during the year established a second STPI unit in Bangalore.

Future Outlook

ASM Technologies Ltd has strengthened its presence in the market and has grown both organically and inorganically.

ASM has expanded Service offerings and strengthened offshore offerings and expanded into new geographies. During the year ASM has added over 42 new clients to the existing client list and continues to service the existing clients in new divisions and new geographies.

Geographical Areas of Operation

The Company continues to strengthen its market initiatives in India, Asia, US and EMEA.

Business Focus Area

◆ Current Areas :

This year the Company has strengthened its core areas of

1. Enterprise Application - Packaged ERP implementation, Support and Maintenance, Add-ons and Application development Integration.
2. Technology Service & Product Engineering Services - System Software, Embedded Software and Firmware continues to be the growth area.

◆ Future Expansion Areas :

Industry Specific ERP Applications :

With the growth in the manufacturing and services industry, the need to rapidly deploy the ERP Solutions specifically designed for the different industry sectors is gaining momentum. ASM is addressing on the following verticals : Agro, Manufacturing, Process, Consumer Products, Hi-Tech and Services. These Industry Specific solutions configured to the Global ERPs will ensure rapid implementation and the clients can reap the benefits of a integrated information system.

Application Integration :

With the consolidation in the Enterprise products, there is growing need to integrate different Enterprise Applications. ASM has been handling integration projects and with many years of working with different solutions will grow this line of business.

Additional offerings to Enterprise Applications :

Business Intelligence and Data Warehousing : With large amount of data getting generated across enterprises, the need for providing meaning to the data is imperative. Hence a separate practice is built around market leading tools on the Business Intelligence and Data Warehousing.

Convergence Technologies :

With good experience in both the Enterprise Applications and the Technology solutions, there is a good demand for convergence technologies. In this regard, initiatives and expertise is being built for providing RFID (Radio Frequency Identification) mobility solutions for the Enterprise Applications for large Corporations.

Remote Support of Applications and Databases :

ASM is poised to ride the wave of the Remote Support of the Applications and the Database Support of the Global Clients. This would mean a dedicated 24X7 Offshore Support Center in India and connecting remotely to the client servers through secure connectivity thereby addressing issues like optimization, enhancing speed, data cleansing applying patches etc.

Engagement Models

Various Client Engagement Models to meet the requirement of the sound delivery system with a distinct value advantage has been effected. Blended Onsite – Offshore model, Nearshore Development Center and Offshore Development Center (ODC) are the current trends which will continue with more volumes in the coming years.

Technology

The Company will continue to focus on Enterprise Applications and Technology Solutions. The drive will be to develop more industry focused solutions for rapid deployment of the applications.

Human Resources

It is proposed to double the headcount of the Technical Resources (comprising of Project Mangers, Business Analysts, Functional Experts, Team Leaders and Software Engineers). Further, as a continuous process all the Technical Staff will be upgraded and trained with suitable technologies as required by the business needs. The Business Development Team is also being increased to bring in more clients and account manage the existing clients. Business Managers will also be posted to overseas locations for generating new client base.

The Company being a certified SEI CMMI Maturity Level 3 and ISO 9001-2000 Company is targeting ISMS 27000 (Information Security management Systems) for the current year.

The Company continues to build on its investments in people and technology to ensure continuous, profitable growth in the years ahead. We attribute our success to an experienced management team and to a customer - oriented organization that is dedicated to excellence.

We sign off this fiscal with renewed faith in our business model's ability to deliver on our promise of growth.

On behalf of the management of the Company and on my behalf, I take this opportunity to thank

- * Our esteemed customers, shareholders, vendors, business partners, advisors and consultants for their support
- * Valuable Employees of the Company for their valuable contribution, efforts and spirit of dedication
- * State Bank of India, Bangalore City Branch and Overseas Branch, Bangalore, State Bank of India, Chicago, SBI Factors & Commercial Services Pvt Ltd., Bangalore, Indian Bank, Singapore and Centurion Bank of Punjab Ltd., Bangalore, for their support and guidance.
- * Central and State Government, Customs, Reserve Bank of India, Software Technology Parks (STPI) and NASSCOM

Bangalore
April 19, 2008

RABINDRA SRIKANTAN
