Directors' Profile

Shri Dharam Pal Gupta (Chairman & Managing Director)

Shri.D.P.Gupta, aged 70 years, is the main promoter of the project with 51 years of rich and vast experience. During his studies only, he started showing keen interest in his ancestral business of Oil Mills, Mechanized Farming, Foundry etc. At the age of 19, he started own industry of sheet metals way back in 1956 with a different process technology which was very low cost and engaged in the manufacturing of Ghamla (Basin), Parathi etc. In 1964 he developed for the first time in India, Automobile Head Lamps and Sealed Beams and a year after Tractor Lighting Kit for M/s Massy Ferguson. In 1968 he started M/s Rajasthan Implements and developed Tractor Driven Implements for Ferguson Tractor. In 1989 Developed Halogen Bulbs first time in India. His achievement to develop lamps with Free Form Technology first time in India by own R&D awarded him the prestigious ACMA Technology Award for the Company. He has earned 25 awards in total out of which 8 awards are under individual capacity and other 17 at Group Company level. Under his able guidance and vision, company established its Marketing Network in 75 countries under the Trade Mark "AUTOPAL". Supply to General Motors, USA as an OEM just in time is one of his biggest achievements. He has made more than 65 overseas visits out of which 2 times around the world. He has visited 28 countries, participated in more than 60 trade fairs, 100 seminars of National and International Level and has visited more than 100 plants around the world including GM, Chrysler, Ford, BMW, Volks Wagon, Peugeot etc. He is holding membership in many Governmental & Non-Governmental Associations like EEPIC, FIEO, ACMA etc. apart from being a permanent member of Rajasthan Government's High Level Export Promotion Council. Out of 29 suggestions given by Mr Gupta, 22 were accepted by the Government of Rajasthan 7 years ago which have resulted in the rapid growth of exports from the State. Under his guidance, Government established Inland Container Depot at Jaipur and the First container stuffed from ICD was of Autolite (India) Limited. He is also a member in the advisory committee of Malavia Regional Engineering College and a permanent member of Rajasthan Government's Industrial Advisory Committee. He has participated 5 times in different high power delegations of Government of India to Latin America, Europe etc. He believes in continuous learning through out the life and he has attended many training programmes at different levels. Some of the important Training programmes he attended are Lean Management, QCDD, World Class Manufacturing, World's biggest technology, Best shop floor practices, Modular concept in manufacturing, etc. He developed many programmes for QCDD (He learn from UK), '0' PPM at shop floor level to reduce cost etc. He predicted 20 years ago that "CHINA WOULD BE THE BIGGEST THREAT FOR INDIA" and to overcome China, designed the "FIVE FINGER STRATEGY" which still exists as a strong guideline for the company and it is being appreciated by International Scholars. For service to society, Mr Gupta has also shown very keen interest in establishing YOGA for disease-free nation. After lot of research work along with three doctors, he has introduced a document "Eat Water & Drink Food, You never get ill". By following the same, any body can live for a very long life.

MANAGEMENT DISCUSSION AND ANALYSIS

Industry Structure, Developments & Outlook

The Automotive Industry growth has shown a slight negative growth figure after 8 years. The total vehicles produced have declined to 1.08 Crore in this fiscal from 1.10 Crore in 2006-07. This is a marginal 3 % decline due

to drop of sales in 2 & 3 wheeler industry which amounts to 80% of the Indian vehicle sales. But The sales of the Passenger cars have risen by 14% and commercial vehicles have increased by 5% which is the main target segment of your company. There is also a considerable increase of 22.44% in Vehicle Exports from the country.

The Indian Auto Component Industry is emerging Global Outsourcing destinations for corporations across the world. The Indian Auto Component Industry is estimated at approximately USD 18 Billion with CAGR of 27%. Exports are estimated at 3.61 Billion with 29% CAGR.

Opportunities, threats

Many Global & Indian Vehicle manufacturers are increasing their production capacities in India. It is expected that this capacity is of about 2 million cars per annum. Some of these companies are Maruti Suzuki, Tata Motors, Hyundai, Ashok

Autolite (India) Limited

Leyland, Toyota, Bajaj Auto, Volkswagen, Nissan & Honda.

Apart from this many International Purchase Offices of Global Auto Makers and Component Manufacturers have been setup in India for their World wide sourcing of auto components from India.

1. High Inflation & High Interest Cost may slow down the Industrial Growth Scenario. This may affect

the volume as well as the profit of the auto component industry.

2. Increasing Prices Raw Material & volatility of the currency may impact the profitability of the company.
3. Another challenge faced by the auto component industry today is the presence of the counterfeit products in the market.
4. There is a lot of pressure from the OEM's to reduce the prices of the components due to high competition

Segment-wise performance

The company operates mainly in three business segments i.e. Head Lamps, Halogen Bulbs and Trading. Segment-wise performance is summarized below:

Particulars	2007-08	2006-07	% change
