MANAGEMENT DISCUSSION AND ANALYSIS

INDUSTRY STRUCTURE, SCENARIO AND DEVELOPMENT

2009 was a year where India saw some stability after a rather downcast 2008, the Industrial and manufacturing sector has rebounded sharply from the rock bottom hit in end of 2008.

After a slump following the global economic slowdown, the Indian textile industry is back on the growth path. Production of Polyester Filament Yarn/POY/Text Yarn has increased to 9,60,835 Tonnes during April 09 to Nov 09 from 8,53,351 Tonnes during the previous period of nine months ended Nov 08, registering growth of 12.60% per annum.

The textiles industry, which is a major contributor to export earnings, has shown a 5% growth in December and 7% in January against a negative growth of 15% during the April-November period of 2009.

The global cotton production is expected to be reduced by 5%, says an International Cotton Advisory Committee, cotton production is expected to come down in China. The total production of cotton would slip to 25 million bales the year 2009-10 as against 29 million bales produced during the last season due to drought and floods in all the major cotton producing states.

The overall textile demand is expected to grow at 5.8 per cent over 2008-09 to 2013-14. Share of polyester in fabrics will grow from 45 per cent in 2008-09 to 49 per cent in 2013-14, as polyester demand is expected to grow at a relatively higher rate of 7.0-7.5 per cent CAGR during the period. We expect price competitiveness of polyester to improve vis-à-vis cotton, which will drive the growth in polyester demand.

Within the polyester category, demand for polyester filament yarn (PFY) is expected to be the highest,

OPPORTUNITY AND THREATS

Increasing trends in Crude, PTA, and mainly CPL. CPL continues to be a cause of worry as the trend expected to continue till May'10.

The volatility in the Crude oil prices affect price of Polyester chips, the raw materials. Competition from China, Vietnam and Thailand in Local market affect Textile Industry.

The Company's sound business strategy is to concentrate on speciality high quality yarns specially Conventionally dyed & dope-dyed yarns, constant development of new products to strengthen its position in domestic as well as International markets, stepping up production of high contributing Nylon grey & dyed yarns, etc.

PRODUCT WISE PERFORMANCE

The Company manufactures Partially Oriented Yarn (POY), Texturised yarn/ Dyed yarn.

Gross annual turnover of POY were of Rs. 7012.71 Lacs as compared to Rs. 6113.91 Lacs of previous year and of Texturised Yarn/Dyed yarn were of Rs. 30605.50 Lacs as compared to Rs. 26640.03 Lacs to previous year.

OUTLOOK

Global production of Cotton is continuously decreasing and

as a result prices of cotton yarn are continuously rising. Increase in cotton yarn prices has pushed demand for polyester yarn.

Increase in supply position of polyester chips in India has pushed chips prices under pressure. Capacity of chips production is expected to go up and then chips price may remain under pressure for next two years.

In view of the above scenario, performance of the Company is expected to be improved.

RISKS AND CONCERNS

Additional capacities being generated for production of PTY, FDY, Dyed yarn in India and dumping of textiles products from China cause pressure on sales and margin.

However, the Company expects to mitigate the impact of risks and concerns since the Company concentrates on Specialty yarns, High quality and development of new products constantly.

ADEQUACY OF INTERNAL CONTROL SYSTEM

Welspun has a proper and adequate system of internal controls to ensure that all assets are safeguarded and protected against loss from unauthorized use or disposition and that transaction are authorised, recorded and reported correctly.

The Company has internal audit system, which covers cost saving aspects, system and procedure improvement. Such reports are regularly reviewed by the management and corrective measures are timely taken for improving efficiency.

DISCUSSION ON FINANCIAL PERFORMANCE

Sales and profit

During the year, sales and services were of Rs. 36112.18 Lacs as against Rs. 31400.50 Lacs in the previous year. The Company has earned net profits of Rs.712.74 Lacs as against net losses of Rs. 725.55 Lacs during the previous year. Discussion on Financial Performance is inserted in Directors' Report.

HUMAN RESOURCES

During the year under review, your Company continued its concern for development of its personnel through various training programmes. Besides, Management has laid special emphasis on strengthening HR activities for all levels in the Organization with an introduction of PMS module.

Industrial relations during the year were cordial.
