MANAGEMENT DISCUSSION AND ANALYSIS

INDUSTRY STRUCTURE, SCENARIO & DEVELOPMENT

India is the second largest producer of man-made fibers (MMF) in the world (World Fiber Report 2008) with presence of large plants having state-of-the art technology. MMF textiles constitute almost two-third of the domestic textile market.

The domestic fiber consumption ratio in India at present is 41:59 (FY09) between man-made fibers and cotton, while it is almost 60:40 globally. The global fiber consumption trend in future is likely to further tilt in favour of man-made fibers as there is a limitation to growth of cotton on account of limited availability of land for cotton cultivation. Moreover, the land available for cotton is gradually declining on account of rise in cultivation of food crops. Future demand is, therefore, expected to be largely in favour of man-made fiber based textiles.

Even in India, the demand for man-made fibers has grown substantially over the last decade, as it has emerged as a major substitute for cotton. The demand for synthetic textiles has been growing due to its lower cost coupled with convenience and maintenance benefits associated with the usage of synthetic garments. The share of man-made fibers in total fiber consumption (cotton and MMF) has risen from 25% in early nineties to 41% at present. Polyester filament yarn (PFY) constitutes over 53% of total MMF production.

The textile industry in India is facing four major problems in cotton front – shortfall in and uncertainty about cotton production, very low cotton yields per hectare, quality of cotton, and cultivation of large number of Bt cotton including varieties.

Skewed demand for synthetic yarn by textile producers, following a dramatic escalation in cotton prices, has opened opportunities for man-made fiber producers.

Prices of POY rose on account of a rise in the cotton yarn prices during the year. The demand for polyester has been healthy due to rising cotton prices.

In an attempt to boost country's textiles sector, India announced the restructuring of the popular Technology Upgradation Fund Schemes (TUFS). As per the scheme, Indian government will provide a maximum subsidy of Rupees 1,972 Crores (\$438 million) to attract an investment of about \$10.42 billion across the textiles value-chain. All segments within the textiles industry are expected to benefit from the scheme.

In the overall textile sector, India's share in the world market is 16.8 per cent and the country ranks only after China among the developing nations.

OPPORTUNITY AND THREATS

With the increase in capacity of polyester filament yarn, competition shall increase.

Increasing trends in Crude and PTA continues to be a cause of worry.

The volatility in the Crude oil prices affects prices of PTA and hence, Polyester chips, the raw materials for Polyester filament yarns.

The Company's sound business strategy is to concentrate on specialty & high quality yarns especially conventionally dyed & dope-dyed yarns, constant development of new products to strengthen its position in domestic as well as International markets, stepping up production of high contributing Nylon grey & dyed yarns, etc.

PRODUCT WISE PERFORMANCE

The Company manufactures Partially Oriented Yarn (POY), Texturised yarn/ Dyed yarn.

Gross annual turnover of POY were of ₹ 8310.80 Lacs as compared to ₹ 7012.71 Lacs of previous year and of Texturised Yarn/Dyed yarn were of ₹ 44190.48 Lacs as compared to ₹ 30605.50 Lacs to previous year.

OUTLOOK

Global production of Cotton is continuously decreasing and as a result prices of cotton yarn are continuously rising. Increase in cotton yarn prices has pushed demand for polyester yarn.

In view of the above scenario, performance of the Company is expected to improve.

RISKS & CONCERNS

Additional capacities are being generated for production of PTY, FDY and Dyed yarn in India.

However, the Company expects to mitigate the impact of risks and concerns since the Company concentrates on Specialty yarns, High quality and development of new products constantly.

ADEQUACY OF INTERNAL CONTROL SYSTEM

Company has a proper and adequate system of internal controls to ensure that all assets are safeguarded and protected against loss from unauthorized use or disposition and that transaction are authorised, recorded and reported correctly.

The Company has internal audit system, which covers cost saving aspects, system and procedure improvement. Such reports are regularly reviewed by the management and corrective measures are timely taken for improving efficiency.

DISCUSSION ON FINANCIAL PERFORMANCE

SALES AND PROFIT

During the year, net sales and services were of ₹ 49633.26 Lacs as against ₹ 36112.19 Lacs in the previous year. The Company has earned net profits of ₹ 1281.34 Lacs as against net profits of ₹ 712.74 Lacs during the previous year. Discussion on Financial Performance is inserted in Directors' Report.

HUMAN RESOURCES

During the year under review, your Company continued its concern for development of its personnel through various training programmes. Besides, Management has laid special emphasis on strengthening HR activities for all levels in the Organization with an introduction of PMS module.

Industrial relations during the year were cordial.

FUTURISTIC STATEMENT

Company's performance as expressed or implied could differ materially due to economic conditions affecting demand/supply and price condition in the domestic & overseas markets, changes in the government regulations, tax laws & other incidental factors.
