MANAGEMENT DISCUSSION AND ANALYSIS

Statements in this Report, particularly those which relate to the Company's objectives, projections, estimates and expectations may constitute forward looking statements within the meaning of applicable laws and regulations. Actual results might differ materially from those either expressed or implied.

A. Industry structure and developments

Considering the plastic industry, in India, low-density polyethylene (LDPE) and linear low density polyethylene (LLDPE) are widely used polymers. This segment of polymers is maintained at the same level. More than 50% of LDPE/ LLDPE are used by the packaging industry. The second most used polymer in India is HDPE. The value of its domestic consumption is growing at expected level due to increase in all round of usage of plastics. HDPE is used in the manufacturing of raffia, blow molding, injection molding, and in the paper industry as well. The majority of manufacturing capacities are owned by the big industrial houses.

B. Opportunities and Threats, Risks and Concerns

Due to volatile prices fluctuation of oil coupled with absence of clear governmental policies on various sector, the capital inflow from the foreign countries have been slowed down. The Indian economy is also passing through its tough time with lower GDP, depreciation in rupee value and all round increase in cost. The plastic industry in particular with environment issue, and likely adverse effects from use of recycled hazardous sub grade raw materials has also witnessed recessionary trend. However, considering the size of Indian economy the plastic industry has good potential. The Industry will do better with good market conditions and stable oil prices.

With more concentration on the specialty grades quality products which are more eco friendly plastic products and moving away from the type of commodity made cheaply will have more scope to survive in the long run considering the environmental issues attached with the Plastic Industry. With the quality consciousness, India can regain its position in the international market.

The main threat is from the unorganized sector comprising low grade plastic goods manufacturers and from non eco-friendly manufacturing units. This may lead to quality problems in the international market and downgrading of Indian manufacturers image. Secondly, due to its basic nature and use of low grade of plastic which is not eco-friendly, there has always been a threat of substitution of plastic as basic material with other metal or alternate material. These are the key risk factors which the Plastic Industry has to tackle in future.

C. Internal control systems and their adequacy

The Company is in process of designing and putting in place various internal control systems for all the key departments. Further Internal Audit systems will also be placed and proposed to be carried out to check the implementation and working of the Internal Systems.

D. Social Responsibility

The Company is conscious of its obligation towards Health, Safety & Environment to meet the norms of Pollution Control Board.

E. Cautionary Statement

Statement in the Management discussion & analysis describing the Company's objectives, projections, estimates & exceptions may be "forward looking statements" within the meaning of applicable securities laws & regulations. Actual results could differ materially from those expressed or implied. Important factors that could make difference to the company's operations include economic conditions affecting demand/supply and price conditions in the domestic & overseas markets in which the company operates changes in the Government regulations, tax laws & other statutes & other incidental factors.

F. Future Outlook

The trading in equity shares of the Company was suspended w.e.f. 5th September, 2017 due to non compliance with Regulation 34 of SEBI (Listing Obligations and Disclosures Requirements) Regulations, 2015 for two consecutive years i.e. March 2015 & March 2016. The Company is now in process of complying all the Regulations and has already submitted application for revocation of suspension in trading of equity shares. The Company has also submitted disclosures as required under SEBI (Prohibition of Insider Trading) Regulation, 1992 and SEBI (Substantial Acquisition of Shares and Takeover) Regulation, 2011. The Company has been putting its best efforts to recommence its operations.

For and on behalf of the Board,

Rushabh Shah
Chairman and Managing
Director DIN: 01944390

Date: 13th August, 2019
Place: Mumbai

DIRECTORS' REPORT

Dear Shareholders,

The Board of Directors of your Company take pleasure in presenting the Twenty-fifth Annual Report together with Audited Financial Statements of the Company for the financial year ended March 31, 2019.
