## Letter from the Chairman

Dear Shareholders,

Aarti Industries Limited (AIL) was started as a small venture by a group of technocrats, in 1984. Over the last more than 20 years it has evolved to its present stature crossing several milestones. During this evolution AIL set up a number of expansion and diversification projects, funded by a public issue in 1992, Institutional assistance and from internal accruals. A part of your Company's growth has also been achieved through mergers and acquisitions. Today your Company has its presence in Basic and Speciality chemicals, Pharmaceuticals and Agrochemicals, and its products find applications in Pharmaceuticals, Dyes & Pigments, Agrochemicals, Rubber Chemicals, Perfumeries, Polymers and Surfactants. I would like to place on record my sincere gratitude to the Company's dedicated management team, senior and junior executives, staff and workers, without whom this achievement would not have been possible.

Details regarding your Company's achievements during 2004-05 along with major operational highlights have been elaborated in the Directors' Report, Management discussions and Annual Report, and in this brief letter, I will only dwell on the future of the Company. I am pleased to state that your Company is now on the threshold of reaching the turnover level of Rs.1000 crores with exports of about Rs.400 crores, by the middle of the year 2006-07.

Your Company has always believed in the evolutionary brand of success. It could be in the form of minor achievements or momentous changes, but the fact remains that your Company is proactively engaged in capitalising the opportunities & countering the challenges thrown up by the external environment. More than 20 years of your Company's existence has been a testimony to its penchant for pursuing success in an evolutionary format.

Over the years, your Company has developed the following core competencies, which will act as the main driving force for the Company's future:

### Core Competencies

- Global capacities
- Customer Satisfaction
- Quality and logistics
- Continuous cost control
- High value addition
- Diversified product range
- Loyal work force
- In-house recognized R&D Centres

Your Company today enjoys the No. 1 position in India and is amongst the top 3 to 5 in the world in most of its major products. Your Company's immediate target in the next couple of years would be to enhance its global position with its large number of export customers all across the world.

Over the last couple of years growth in global chemical business has thrown up a lot of opportunities in the fields of Speciality chemicals, Pharmaceuticals and in Custom Synthesis. Leveraging the advantage of a large customer base, the Company is streamlining its operations to cater to these segments. During the past couple of years the Company and its subsidiary have invested about Rs.110 crores in these ventures. It has commissioned a new unit at Vapi for Custom Synthesis Research and Manufacturing. Your Company is also shortly commissioning its new about Rs. 35 crores unit at Tarapur for USFDA approved Pharmaceutical manufacturing. Your Company is also working out marketing tie-ups with multinationals for its existing and new range of products. These facts coupled with the in-house competent R & D team gives opportunities to increase volumes in existing products and to introduce new products.

Thus your Company is in an ideal position to meet its future growth plans through manufacturing activities, which can be summarized amongst the following:

- (a) Increased Presence in the Pharma sector
- (b) Custom Synthesis Research and Contract Manufacturing
- (c) Global leadership in its product range
- (d) Development of new products and better processes

The above steps will augur a bright future for the company in terms of healthier growth rates in topline, export & bottomline.

Your Company's stakeholders, employees, customers, suppliers, bankers and institutions have rendered their unflinching support and goodwill over the years, which has enabled the Company to attain its present size and strength, and I am sure that this support will continue to help the future growth of the company.

Thank you & with best regards,

Sincerely yours,

C.V.Gogri  
Chairman
