MANAGEMENT DISCUSSION AND ANALYSIS

BUSINESS OVERVIEW

The Company is one of the oldest and largest Denim manufacturers of India. The year in retrospect has been exceptionally good as can be seen from the figures given below:

PERFORMANCE AND REVIEW OF OPERATIONS

The details of production and sales during the year are given below:

	2002-03	2001-02
Production (Lac mtrs.)	146.93	118.40
Sales Volume (Lac mtrs)	148.94	120.92
Fabric Sales (Rs.in lacs)		
Domestic	Rs. 7286.69	Rs 5444.78
Exports	5310.86	4554.93
Total	12597.55	9999.71

There has been significant improvement in performance with both domestic and export sales registering a growth of 34 % and 17 % respectively. The profitability has significantly improved due to low cotton prices, better price realisation per metre and reduction in interest cost.

INDUSTRY OUTLOOK

Since last two years the denim industry has seen a buoyancy in demand both in domestic as well as international markets and it is expected to continue for sometime to come.

The resurgence of denim can be attributed to the innovations by the industry by offering variety of value added products, which has repositioned the denim fabric as a fashion product rather than a commodity, and enlarged its end uses.

Further the Denim mills in Asia continue to remain competitive in terms of cost, compared to US mills, and other producers. This has greatly benefitted Asian denim manufacturers particularly India. The competition now remains between Asian Mills.

Though the prices of the main input viz cotton could be volatile due to vagaries of nature, the company is still confident to perform reasonably well in the coming years.

EXPANSION

The Company's expansion programme of 8.25 million mtrs. p.a. is at a very advance stage of completion. The commercial production is expected to begin in August, 2003. The most important aspect of the expansion project is that it is almost entirely funded from internal cash accruals of the company, without adding any debt burden.

GROWTH STRATEGY

The Company's strategy of consolidating existing domestic markets where it has a very strong presence and expanding global markets is yielding the desired results.

Further with the end of quota regime in sight and considering the preference of international buyers in sourcing garments instead of fabric from Asian Countries, the Company is planning to enter into garment manufacturing.

INTERNAL CONTROL SYSTEMS

The Company has appointed Internal Auditors who perform the audit so as to ensure the adherence to policies and procedures. Audit Committee reviews adequacy of the internal control and oversees the audit procedure. Internal control systems are adequately evolved for monitoring the effective utilisation of assets and safeguarding of all the assets. The systems further ensure that all transactions are appropriately authorised, recorded and reported. Financial records are maintained to enable efficient preparation of financial statements.

HUMAN RESOURCES

The Company has two manufacturing plants. The Spinning plant is located at Village Sari, Taluka Sanand, Dist. Ahmedabad and the Weaving and Processing plant is located at 188/2, Ranipur Village, Narol, Ahmedabad. As on 31st March 2003, there are 457 employees in both the plants. The company continues to enjoy cordial relationship with its employees.
