b) General Reserve	75.00	75.00
c) Proposed Dividend	179.90	179.90
d) Tax on proposed dividend	23.05	23.05
e) Balance carried to Balance sheet	1882.22	754.63

**2. DIVIDEND :**

In view of the Company's profitable performance, the Directors recommend the payment of a dividend of Rs. 1/- per share on 1,79,99,000 equity shares of Rs.10/- each for the year 2003-04, if approved by the members at the Annual General Meeting.

**3. OPERATIONS :**

During the year under review, the company put up a good performance, inspite of steep increase in the cost of main input viz. Cotton. This satisfactory performance was mainly attributable to the commissioning of the expansion project in mid-Sept. 2003 and good domestic demand.

The fabric turnover was higher by 33% at Rs.168.07 crores as against Rs.125.97 crores in the previous year. Because of the appreciation of rupee, exports were curtailed and the domestic sales was higher by 78 %. The Company achieved a net profit of Rs.21.59 Crores.

The removal of quotas with effect from 1st January, 2005 is expected to help the industry to export higher volumes both of fabric and garments and your company is geared up to take the benefit of these opportunities.

**4. EXPANSION :**

Keeping in mind the available opportunities post January, 2005, your Directors have decided to expand the Weaving Capacity further by 14 million mtrs. and matching Spinning capacity by 3100 MTPA at an estimated cost of about Rs.40 Crores. The expanded capacity is expected to be operational by end September, 2005.

**5. CORPORATE GOVERNANCE :**

As required by Clause 49 of the Listing Agreement with the Stock Exchanges, a compliance report on Corporate Governance has been annexed as part of the Annual Report.

### MANAGEMENT DISCUSSION AND ANALYSIS

#### BUSINESS OVERVIEW

The Company is one of the oldest and largest Denim manufacturers of India. The year in retrospect has been satisfactory as can be seen from the figures given below:

#### PERFORMANCE AND REVIEW OF OPERATIONS

The details of production and sales during the year are given below:

	2003-04	2002-03
Production (Lac mtrs.)	192.11	146.93
Sales Volume (Lac mtrs)	191.40	148.94
Fabric Sales (Rs.in lacs)		
	Rs.	Rs.
Domestic	12969.58	7286.69
Exports	3838.34	5310.86
	16807.92	12597.55

The sales of the Company has grown by 33 %, which is mainly because of the commissioning of expansion project in Sept, 2003. The Company has been able to maintain the absolute amount of net profit of the previous year, inspite of steep increase of about 25 % in the cost of cotton.

#### INDUSTRY OUTLOOK :

During the year under review, due to appreciation of rupee and slight sluggishness in the global denim market, exports were curtailed. However, the global denim market is again showing signs of recovery since last 4/5 months.

The cotton prices during 2003-04 was the main concern and the prices went as high as 40% to 50% compared to previous year. However, in case of our company due to timely and judicious purchase planning, the price rise was felt only to the extent of about 25%.

Your company has benefitted from its strong marketing roots in domestic markets and could withstand the negative impacts of the international market, by selling its products in domestic market.

#### EXPANSION :

Considering the favourable position in which the Asian countries are expected to be post January, 2005, it has been decided to expand the weaving capacity by further 14 million mtrs. and matching Spinning Capacity by 3100 MTPA at an estimated cost of about Rs.40/- crores, which is expected to start commercial production in Sept. 2005.

#### GROWTH STRATEGY :

The Company's strategy of consolidating existing domestic markets where it has a very strong presence and expanding global markets is yielding the desired results.

The Company has also planned to move up the value chain i.e. garment manufacturing. The size of the operations will be decided at appropriate time.

#### RISK MANAGEMENT :

Your Company faces general business risks and appropriate steps are being taken either to mitigate the risks or to reduce their impact to the extent possible.

Apart from the general risks, the main commercial risk that your company faces is that of its main raw material i.e. cotton price.

The cotton scenario in the country is highly volatile which leads to steep price rises. Judicious and timely purchases based on the long experience of procurement of cotton ensures that the average cost of cotton is kept as low as possible.

The other cost which affects the cost of production substantially is power and fuel.

Your company is planning either to generate power with turbine based power plants or use gas as fuel from next year which is expected to result in savings in power and fuel cost.

The other area of risk is exchange volatility. However, your company being a net foreign exchange earner, is not substantially affected. Still your company seeks outside professional help to hedge its export revenues.

#### INTERNAL CONTROL SYSTEMS :

The Company has appointed Internal Auditors who perform the audit so as to ensure the adherence to policies and procedures. Audit Committee reviews adequacy of the internal control and oversees the audit procedure. Internal control systems are adequately evolved for monitoring the effective utilisation of assets and safeguarding of all the assets. The systems further ensure that all transactions are appropriately authorised, recorded and reported. Financial records are maintained to enable efficient preparation of financial statements.

#### HUMAN RESOURCES :

The Company has two manufacturing plants. The Spinning plant is located at Village Sari, Taluka Sanand, Dist. Ahmedabad and the Weaving and Processing plant is located at 188/2, Ranipur Village, Narol, Ahmedabad. As on 31st March 2004, there are 581 employees in both the plants. The company continues to enjoy cordial relationship with its employees.
