MANAGEMENT DISCUSSION & ANALYSIS

INDUSTRY STRUCTURE AND DEVELOPMENTS.

BUSINESS SCENARIO

Non-Banking Finance Companies (NBFCs) are an integral part of the country's financial system because of their complementary as well as competitive role. They act as a critical link in the overall financial system catering to a large market of niche customers. As a result of consolidation and restructuring in the financial sector and liberalisation and globalisation of markets only few strong NBFCs now remain in business. However, competition continues to be intense, as the Indian and foreign banks have entered the retail lending business in a big way, thereby exerting pressure on margins. The erstwhile providers of funds have now become competitors. NBFCs can sustain in this competitive environment only through optimization of funding costs, identification of potential business areas, widening geographical reach, and use of technology, cost efficiencies, strict credit monitoring and raising the level of customer service.

On the regulatory front, NBFCs are regulated by the Reserve Bank of India (RBI) almost at par with banks. All the prudential norms for asset classification, income recognition, provisioning etc., are applicable to NBFCs in India.

The Indian economy continues to grow at an enormous pace, and is expected to register a growth rate of 9.4 percent in 2006-07. In fact India has grown at unprecedented rates for each of the preceding Four years, recording a compounded annual growth rate of 8.6%. It is very high growth rate. The growth is not restricted to one sector but it is broad based growth.

The Company's main object is Non-banking Finance activities. The market for this activity offers high potential for growth. The Company has already started Giving loan & Inter Corporate Deposit to the corporate clients

Company is operating business from Mumbai.

OPPORTUNITIES AND THREATS

In financial services business, effective risk management has become very crucial. As an NBFC, Your Company is exposed to credit risk, liquidity risk and interest rate risks. Your company has in place suitable mechanisms to effectively reduce such risks. All these risks are continuously analysed and reviewed at various levels of management through an effective information system.

The Financing industry is becoming increasingly competitive, and Abhinav's growth will depend on its ability to compete effectively. As Indian Stock Market is booming, there are huge opportunities in financial market. Company can make good gain from this market. The Company is having excellent Research Department. The Company is having team of Expert advisor, who is helping the Company in making good Investment. The Company is exposed to all risks & threat which Financial Market & Non Banking Finance Company faces. The company is also facing risk of heavy ups and down in stock market which can be minimize due to risk management system of our company.

SEGMENT-WISE PERFORMANCE

The Company's total investments made by the company were Rs12.65 crores. All Investments are made in listed and non-listed securities (As annexed to schedule 'D' attached with Balance sheet)

During the year the Company has mainly concentrated on Investment in Stock Market & Loans & ICD Market. The Company's net profit is decreased by 70 % compared to last year. The main reason is that company is concentrated on investment business and stopped high risk trading activities during the financial year under review. Further Company is diversifying its activities from Investment in shares to Corporate Loan & deposit.

SUBSIDIARY COMPANY

As there are no subsidiaries of the company, investment made in subsidiaries is NIL

OUTLOOK

The Company is reorganizing its entire business activities. Company has decided to stop high risk trading business. Company is appointing more and more professionals further in view of strong GDP growth, political stability and huge investment planned in infrastructure and manufacturing sector, your directors see good growth in near future. Company is confident of being able to leverage all the opportunities with our resources and expertise to grow our business in the future and continue to achieve high growth. Consequently our outlook for 2007

RISKS & CONCERNS.

Increased competition and market volatility has enhanced the importance of risk management in Share Trading business. The sustainability of the business is derived from the following:

- * Identification of the diverse risks faced by the company.
- * The evolution of appropriate systems and processes to measure and monitor them.
- * Risk management through appropriate mitigation strategies within the policy framework.
- * Monitoring the progress of the implementation of such strategies and subjecting them to periodical audit and review.
- * Reporting these risk mitigation results to the appropriate managerial levels.

There is the risk of loss from inadequate or failed systems, processes or procedures. These may be attributed to human failure or technical problems given the increased use of technology and staff turnover.
