### 2. DIVIDEND & TRANSFER TO RESERVE:

The Board has not recommended any dividend during the year under consideration to augment resources for future growth of the company and it has also not transferred any amount to reserves.

### 3. OPERATIONS AND THE STATE OF AFFAIR OF THE COMPANY

During the year 2015-16, the Company has posted a gross turnover of Rs. 3149.52 lakhs lower by 8.70 % over last year ( Rs. 3423.51 lakhs in the F.Y. 2014-15) due to correction in realization on account of lower input cost and downward trend of prices. However the Company has earned a net profit of Rs.47.45 lakhs before tax compared to previous year's profit of Rs 46.38 Lakhs. There is an improvement in profitability due to optimization of cost of productions.

### 4. FUTURE OUTLOOK:

During the year, global steel demand stood at 1.5 billion tonnes, a decline of approximately 2.5% compared to the previous year. The global steel prices were at the lowest level since last decade. The Indian steel industry

is the third largest producer of crude steel, only behind China and Japan. In India, the growth in production was driven by capacity expansion from approximately 80 million tonnes in Financial Year 2010-11 to 110 million tonnes in Financial Year 2014-15, a CAGR growth of 8%. During Financial Year 2015-16, the total steel demand stood at 80 million tonnes growing at 4.5% over the previous year.

During the year, India continued to witness significant level of imports, while initiatives like the safeguard duty and minimum import price have provided some relief to predatory pricing being followed by the exporting countries.

The world steel market continues to suffer from weakness in the manufacturing sector and inadequate investments in the developed countries. The growth in developed countries is expected to be modest owing to factors such as low productivity, unfavorable demographic trend, uncertainties in the political landscape and slowdown in activities on account of the ongoing financial crisis. In addition to this the Chinese economy has depressed the manufacturing sector, particularly related to metal products. Exports from other developing and developed countries have declined due to insignificant demand in China.

However, India's prospects seem bright with the Government of India taking several policy measures to support manufacturing, infrastructure and foreign investment. As per World Steel Association (WSA), steel demand in the emerging and developing economies (excluding China) is expected to grow by 1.8% and 4.8% respectively in 2016.
