2. DIVIDEND & TRANSFER TO RESERVE:

The Board has not recommended any dividend during the year under consideration to augment resources for future growth of the company and it has also not transferred any amount to reserves.

3. OPERATIONS AND THE STATE OF AFFAIRS OF THE COMPANY

During the year 2016-17, the Company has posted a gross turnover of Rs. 3880.69 lakhs higher by 23.21 % over last year (Rs. 3149.52 lakhs in the F.Y. 2015-16) due to correction in realization. The Company has earned a net profit of Rs.61.28 lakhs before tax compared to previous year's profit of Rs 47.15 Lakhs on account of lower input cost. There is an improvement in profitability due to increment in sale volume and optimization of cost of productions.

4. FUTURE OUTLOOK:

Global steel markets recovered during Financial Year 2016-17 registering better than estimated production & demand growth. During the year, the global steel demand grew by 1% to 1.52 billion tonnes on the back of stronger than expected demand growth in China. The crude steel production was 1.63 billion tonnes, up by 0.8% compared to the previous year.

The global capacity utilization ratio remained around 70% in spite of proactive measures being undertaken in China and Europe. For instance, Chinese Government intends to reduce steel production capacity by 100-150 million tonnes by 2020, and has also announced merger of two major Chinese steel producers in the previous year.

Regulatory measures announced by the Indian Government during the year have continued to aid domestic steel prices. The Indian steel industry has increased its capacity in the recent years, though the demand growth has remained muted. This has resulted in financial stress in the balance sheet of the steel players. The domestic crude steel capacity rose to 122 million tonnes, an increase of 11% year-on-year while the production of finished steel was around 101 million tonnes. The Financial Year 2016-17, saw a modest consumption growth of 3% due to low growth in construction sector and impact of demonetisation and a sharp decline in imports as domestic supply rebounded to the extent that India became a net exporter of steel, after a gap of three years.

As per the World Steel Association ('WSA'), global steel demand is expected to grow at 1.3% in 2017 to 1.54 billion tonnes and a further 0.9% in 2018 to 1.55 billion tonnes. Recovery in developed economies and accelerating growth in emerging and developing markets especially Russia, Brazil and India is expected to aid demand growth and keep inventory levels low which in turn is expected to support global steel prices. However, low level of capacity reduction than targeted by nations and continued oversupply in raw materials especially iron ore are likely to weigh down on the prices in the absence of effective trade measures and/ or increase in steel demand.

India's prospects continue to remain bright inspite of imports and surplus capacity. Proactive policy measures by the Government are expected to address most of these concerns. For instance, a Steel Price Monitoring Committee was formed by the Government with an aim to monitor price rationalization, analyse price fluctuations and advise all concerned regarding any irrational price behavior of steel commodity. As per WSA, steel demand in India is expected to grow at 6-7% per annum in the next two years, compared to 4% in 2016.

5. MANAGEMENT DISCUSSION AND ANALYSIS

The Management Discussion and Analysis as required by the Listing Regulation is annexed herein by reference and forms an integral part of this annual report.

6. INTERNAL FINANCIAL CONTROL SYSTEMS AND THEIR ADEQUACY:
