3. Review of Business Operations

Your Company has strived to maintain its consistent track record of growth during the financial year 2008-09, in spite of the core sector industries to which the Company caters having witnessed slowdown, in terms of production and capacity utilisation. The Company's marketing and operational strategies coupled with a well balanced portfolio of product mix, has largely contributed to the turnover and profitability of the organisation. In particular, the foreign business contacts have enabled transfer of technical expertise in import and marketing of sophisticated machineries at competitive costs to the customers in India.

Going forward, with the general business syndrome reflecting a possible deferment and cautious approach towards capital expenditure, it is expected that repair and refurbishment segment, should thrive on providing cost effective and value added solutions. This would be to the advantage of not only the customers, but also the industrial sector, in terms of optimum conservation of scarce natural resources.

4. Directors' Responsibility Statement

In the preparation of the financial statements the Board of Directors of the Company has ensured that:

- The applicable accounting standards have been followed.

- The accounting policies are reasonable, prudent and are consistently followed to give a true and fair view of the state of affairs of the Company.
