Graduating from a mere trading company in 1979 to a complete solution provider has indeed been remarkable. The revenue realisation of rupees one hundred and twenty crores, factoring a growth of approximately twelve percent year-on-year, corroborates consistency in performance. This has also enabled the Company post an increased profit, in spite of business compulsions laying stress on margins.

Going further, the Company plans to strengthen its existing business verticals with emphasis on infrastructural development and man power training, as the key to success largely hinges on these parameters. It may be pertinent to note that the Company undertakes efforts which enable employees at all levels to achieve job satisfaction, maintain high morale and last but not the least, foster a sense of organisational belongingness.
