COMPANY HIGHLIGHTS

HEALTH CARE DIVISION :

The Division has launched Speciality Critical care and Trauma care Ambulances, fitted with state of the art equipment. Ambulances being developed on turnkey basis are broadly of two types :

◆ BLS (Basic life support) :

A basic life support (BLS) ambulance is one that provides transportation plus the equipment and staff needed,

These ambulances are best suited for :

Basic services as control of bleeding, splinting fractures, treatment for shock etc.

Non-emergency patient transport.

Transport to local hospital for Radiology and Radiation appointment.

Hospital discharges

Visit to physiotherapy and Dialysis appointment.

◆ ALS (Advanced life support) :

The Advanced life support (ALS) ambulance is a fully loaded ambulance to care for all the needs. These vehicles are equipped with specialized life sustaining equipments and include, at a minimum, one two-way voice radio or wireless telephone. These ambulances can transport ventilator – supported patients on long distances.

COMPANY HIGHLIGHTS

These ambulances are recommended for transporting :

Cardiac care patients

Critically ill Patients

Trauma Patients

These ambulances are fitted with the state-of-the-art pre hospital medical equipment almost identical to the hospital ICU's.

Apart from the specifically Critical Care / Trauma Care Ambulances, we also undertake Manufacture and supply of Mobile Medical units for Diagnostics, fitted with all the equipment and services as per the customer needs and specifications.

The Division has also started executing turnkey projects for providing customised solutions for construction of Modular Operation theatres, surgical pendants, Intensive Care Units :

The most complex and challenging area of hospital construction is the operating theatre.

The pre-engineered approach solves the problems of coordination, which may be encountered during the construction or refurbishment of the modern operating theatre department, whilst simultaneously providing a structure of the highest quality and standards.

Pre-fabricated Operating Theatre is a structural steel shell with a joint less sealed coating, which may be supplied as an individual unit or as part of a complete operating theatre.
