Looking back is always one way of planning for the future because the past invariably reveals lessons learnt, strategies that worked and success stories. As AkzoNobel India enters its 61st year, our thoughts turn to the decades gone by. It has been a time of change and challenge; we have grown our presence, added more customers and introduced new products and innovations. Along the way, we have built a robust talent pool and entered unexplored markets. We have also met changing customer aspirations and emerged as a significant player in the coatings industry. AkzoNobel has steadily invested in quality infrastructure and technology and this strategy has really worked well; it has given us a competitive edge in a volatile economic situation. And, in the midst of all this, our commitment to sustainability has

remained unchanged. We are leaders in sustainability and will carry on with our endeavour to create more value from fewer resources.

We have chosen 'Sixty vibrant years' as the theme of this annual report for it is these memorable decades that have defined the company's past. Driven by our values, we strongly believe that AkzoNobel will continue to deliver with passion for excellence.

### AkzoNobel India at a glance

AkzoNobel India is part of the AkzoNobel Group, a leading global paints and coatings company and a major producer of specialty chemicals. Headquartered in Amsterdam, The Netherlands, AkzoNobel has an employee strength of over 47,000 in around 80 countries. Its portfolio includes well-known brands such as Dulux, Sikkens, International, Interpon and Eka. In 2008, we became a member of the AkzoNobel Group.

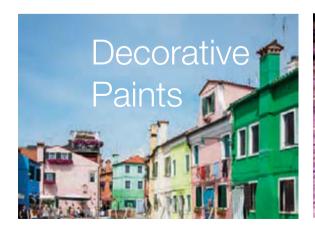

At AkzoNobel India, we manufacture and market a wide range of decorative paints, performance coatings and

specialty chemicals. In the last 60 years, we have witnessed expansion, growth and transformation and have emerged as one of the leading players in the Indian paints industry.

The company provides innovative solutions to various sectors, including automotive, consumer electronics, power, aviation, shipping and leisure craft, construction, oil and gas, water and waste water treatment, food and beverages, among others. We use best-in-class technologies to meet evolving customer aspirations and have manufacturing facilities, offices and distribution networks across the country.

In line with our parent company's focus on sustainable development, we believe in making life more livable and cities more human through our products, services, manufacturing processes and innovation. Our manufacturing facilities are provided with state-of-the-art environmental management systems. We are committed to Health, Safety, Environment & Security (HSE&S), with care being taken to protect the people and the planet.
