## **MANAGEMENT DISCUSSIONS AND ANALYSIS REPORT**

The year 2008-2009 witnessed a lot of developments in the Indian Economy. Global economic meltdown has affected almost all countries of the world, India is not an exception. It has affected each and every sector of the economy. The slowdown in growth of Indian economy has resulted in lower industrial production, negative exports, rise in inflation, loss of job & Investment opportunities. The GDP for the year 2008-09 grew by 6.7 percent compared to 9 percent in 2007-2008. Fall in exports and decline in domestic demand attributed to a lower growth of manufacturing sector at 2.4% only. However, India's cautious approach towards reforms has saved it from possible disastrous implications and has again come on the path of recovery.

Your Company mainly operated in the food processing, pharma and floriculture business. The food processing sector is highly fragmented industry where major industry is concentrated in the unorganized sector and only 25% of the industry is in organized sector. Changing lifestyles, increasing awareness about healthy and quality foods have led to increasing acceptance of processed, value added and packaged and branded foods. At Alchemist, major focus is on quality and customer satisfaction.

Your company is setting up a chain of restaurants called 'Republic of Chicken' across the country. The company plan to roll out at least 1000 outlets – diners, takeaways and home deliveries pan India over the next couple of years. In the first phase, 100 exclusively company owned outlets will be opened.

Each of the businesses of Alchemist Limited has tremendous growth and profitability potential and is at a stage whereby they require focused leadership and management attention. The Company is planning to hive off its food division with Alchemist Foods Limited, a wholly owned subsidiary, in order to lend greater focus on operations, for which petition is being moved with the Hon'ble High Court at Delhi.

The Company's pharmaceutical and floriculture business(es) are doing well. Number of new products have been introduced in the market in the pharma business and has plans to launch further products in the near future.

During the year under review ended 31<sup>st</sup> March, 2009, your company has achieved turnover & other income of Rs.38919 lacs against the turnover & other income of Rs.30793 lacs (Rs.41057 lacs on annualized basis) achieved during the previous year showing a marginal decline of about 5.20% in the growth. The company has earned net profit of Rs.1403 lacs as against Rs.1070 lacs (Rs.1427 lacs on annualized basis) earned in the previous year showing decline of 1.68% on annualized basis.

Economic Recession, Government policies, foreign exchange fluctuation, competition from international and domestic players, rise in cost of raw materials etc. are some of the the factors which are cause of concern for the company. Your Company has taken adequate care to minimize the impact of such factors and is fully geared up to deal with such type of situations.

The Company has put in place internal control systems and procedures commensurate with its size and scale of operations. The Company has established procedures for the purchase of raw materials and stores, manufacture of goods and for its marketing thereof, which are modified from time to time as per the requirement of the business and recommendation of internal audit. All the transactions are properly accounted for and physical verification has been conducted periodically.

### HUMAN RESOURCES

Relationship with the employees in all its units continues to be cordial and harmonious throughout the year.

### ACKNOWLEDGEMENT

Your Directors wish to place on record their appreciation for the continued support & co-operation by Central and State Government, stakeholders, banks, valued clients and business associates and valuable contribution made by the employees of the Company.
