ANNEXURE TO THE DIRECTOR'S REPORT MANAGEMENT DISCUSSION AND ANALYSIS REPORT

INDUSTRY HIGHLIGHTS

Gems and Jewellery have played a very important role in the tradition, culture and history of civilization. The intrinsic value of Jewellery has always attracted people across geographies, cultures and social strata.

Consumer preference and reasons for buying Jewellery started getting segmented into 'fashion', 'bridal' and 'investment'. Over time, an 'industry' evolved, initially concentrated around specific geographies and meeting specific needs, but gradually emerging as a global industry.

Today, the industry is at turning point. It is expected that the interplay of various trends such as globalization, increasing role of regulation, technological advances, increasing consumer sophistication, emergence of alternative retail channels and such. These could potentially change the industry structure and the way it functions in multiple ways.

MAJOR INDUSTRY COMPONENTS

1. **Diamonds:** Diamonds have always enjoyed a special place among precious gemstones, contributing about 47 per cent to the total industry size, in value terms. In the past, diamond Jewellery was limited to a very small elite segment of the global population. However over the past 50 years, diamonds have seen increasing democratization. Diamond Jewellery has, therefore, emerged as segment showing significant growth in some of the emerging markets.
2. **Gold:** Gold has always been the jeweler's favorite metal, given its intrinsic luster and ease of fabrication. Gold Jewellery enjoys the leading position in most markets across the world, and in many ways forms the backbone of the precious Jewellery industry. Given the fact that gold is also one of the traded metals, gold jewellery consumption is also impacted by gold price movements. This segment today forms about 42 per cent of the total industry, in value terms.

Global Gems & Jewellery Industry

Global Jewellery sales is expected to grow at 4.6 per cent year-on-year to touch USD 185 billion in 2010 and USD 230 billion in 2015.
