ALKA PANDEY
CHAIRPERSON AND MANAGING DIRECTOR

MANAGEMENT'S DISCUSSION & ANALYSIS**OVERVIEW:**

The Company is into Stock Broking and is a member of National Stock Exchange (NSE). Company operates in Capital Market – Cash Segment, Future & Options (F & O) segment and Whole Sale Debt Market (WDM). During the year though economy grew with pace but at the same time increasing inflation rate was a cause of concern. Capital Market remained robust throughout except in last quarter of the year, when a steep fall happened. This created some nervousness in Investor community and affected the business adversely. Same trend is expected to continue for a year or so. The estimates and judgements relating to the financial statements have been made on a prudent basis so that the financial statements reflect in a true and fair manner the form and substance of transactions, and reasonably present the Company's state of affairs and profits for the year.

BUSINESS ENVIRONMENT:

Capital market performance was very good till end of calendar year but was marred by various factors which resulted in steep fall in the month of January 2008. Investor sentiments in general remains cautious and is expected to remain so as there does not seem any reversal in trend in near future. Present scenario also looks uncertain due to international factors and business and economical situation.

PERFORMANCE:

The company's performance during the year ended 31st March, 2008 was as under:

	2007 – 08	2006 – 07
Income From Operations (Rs. in Lacs)	458.66	266.15
Operating Expenses (Rs. in Lacs)	76.44	27.65
Employee Cost (Rs. in Lacs)	91.66	95.96
Administrative Expenses (Rs. in Lacs)	110.57	95.04
Financial Charges (Rs. in Lacs)	35.64	16.07
Depreciation (Rs. in Lacs)	28.90	21.77
Profit Before Taxation (Rs. in Lacs)	199.87	44.42

Income from operations mainly consists of brokerage from Equity Market, WDM and Commission from Mutual fund distribution. Income has shown increase, as during the year, Future & Options (F & O) segment which was started in the last year was operational throughout the year which has contributed to the revenue. Also during the year major thrust was given to Mutual Fund Distribution which has added substantially to the income of the company.

INTERNAL CONTROL & ADEQUACY:

The company has proper & adequate internal control system to ensure that all assets are safeguarded and protected against loss from unauthorized use or disposition. Your Company also ensures that transactions are authorized, recorded and reported correctly. As a step further, your company has already taken steps to document its systems and processes.

RISKS MANAGEMENT SYSTEM:

We manage the risks associated with our broking operations through the use of internally developed credit algorithms implemented through fully automated risk management software and selective direct monitoring of certain operating parameters. Our automated risk management procedures rely primarily on internally developed risk management system. We manage our business risk through strict compliance and internal checks. We have a well-managed internal audit and internal control system working along with the external audit performing checks at regular intervals to identify any discrepancies and rectify at the earliest.

OPPORTUNITIES:

The introduction of new financial instruments such as Currency Derivatives and Energy Futures will open new avenues for business. Though volume in financial markets has increased manifold but still overall participation is very low which is an area of opportunity to tap with. There is also substantial scope for expanding our institutional presence in the equities broking business as its contribution is currently much lower than that of some of our major competitors. We can also substantially expand our business by going in for retail clientele as till date our major aim was on high net worth clients and offer wealth management solutions.

RISK AND CONCERNS:

Our company has a diversified source of income such as Capital Market, Future & Options Segment, Fixed Income Group and Mutual Fund Distribution, still economic slowdown, increase in interest rate, political instability remain key concerns. Our business continues to remain linked with the economic performance of the country. Company's performance shall be affected if Stock Markets were to decline sharply. Increased competition also is a cause of concern. Availability and retention of manpower is also a key considering the growing number of opportunity and increasing number of players in this field.

OUTLOOK:

The Indian economy has its own strengths and it has sound fundamentals. Growth in overall sector is continuous and sustainable. Irrespective of the international turmoil of financial sector our economy has shown the soundness and sustainability against all odds. This will regain faith in the international community and will bring them back once the worst is over, which in turn will bring the things in right perspective. We have technology platform at par with other players in the field and efficient risk management system. This, coupled with our growing geographical reach, should allow us to maintain our superior service delivery standards and improve selling of financial products and services to the investor fraternity. The new segment i.e. Retail which is being given thrust in the year shall certainly add to the revenue of the company.

HUMAN RESOURCE:

Our people are our key assets of the organization. Skilled and talented manpower is the base for our services and quality of the services. Company follows the policy of "OWN YOUR DEPARTMENT POLICY", where we give freedom to the employee to work as if he is the owner of his department. Our highly motivated work force work towards providing a quality service and adding to the growth of the company. Company provides on the job training to the employees, where management personnel and senior executives train the junior executives and new appointees. Regular meetings are held with the personnel of all departments to share with each other their thoughts and suggestions for betterment of the processes and work lines.

CAUTIONARY STATEMENT:

The statements made in this report describe the Company's objectives and projections that may be forward looking statements within the meaning of applicable securities laws and regulations. The actual results might differ materially from those expressed or implied depending on the economic conditions, government policies and other incidental factors, which are beyond the control of the Company.
