MANAGEMENT'S DISCUSSION & ANALYSIS

OVERVIEW:

The Company is into Stock Broking and is a member of National Stock Exchange (NSE). Company operates in Capital Market – Cash Segment, Future & Options (F & O) segment and Whole Sale Debt Market (WDM). During the current year Company also took Membership of Currency Derivative Segment (CDX) of NSE, this segment is yet to take off.

The year was marred by International Financial Crisis and world over grappled with recession. Indian Capital Market too was not unaffected by this and the year saw grim situation prevailing in all the sectors. The situation seems to be reviving somewhat and coming year may see some better scenario. The estimates and judgements relating to the financial statements have been made on a prudent basis so that the financial statements reflect in a true and fair manner the form and substance of transactions, and reasonably present the Company's state of affairs and profits for the year.

BUSINESS ENVIRONMENT:

The year 2008 – 09 was a year of struggle in form of word wide recession across the sectors. We have witnessed one of the worst financial crises of the century. Barely there was any sector which remained unaffected by these global phenomena. Indian business and market were also not spared by this. We did face the turbulence and industry and economy in general struggled throughout the year. The situation now seems to be improving somewhat and we may see better things in days to come.

PERFORMANCE:

The company's performance during the year ended 31st March, 2009 was as under:

	2008 – 09	2007 – 08
Income From Operations (Rs. in Lacs)	358.02	458.66
Operating Expenses (Rs. in Lacs)	21.23	76.44
Employee Cost (Rs. in Lacs)	93.15	91.66
Administrative Expenses (Rs. in Lacs)	102.09	110.57
Financial Charges (Rs. in Lacs)	78.06	35.64
Depreciation (Rs. in Lacs)	33.62	28.90
Profit Before Taxation (Rs. in Lacs)	245.59	199.87

INTERNAL CONTROL & ADEQUACY:

The company has proper & adequate internal control system to ensure that all assets are safeguarded and protected against loss from unauthorized use or disposition. Your Company also ensures that transactions are authorized, recorded and reported correctly. As a step further, your company has already taken steps to document its systems and processes.

RISKS MANAGEMENT SYSTEM:

We manage the risks associated with our broking operations through the use of internally developed credit algorithms implemented through fully automated risk management software and selective direct monitoring of certain operating parameters. Our automated risk management procedures rely primarily on internally developed risk management system. We manage our business risk through strict compliance and internal checks. We have a well-managed internal audit and internal control system working along with the external audit performing checks at regular intervals to identify any discrepancies and rectify at the earliest.

OPPORTUNITIES:

Our venture of going in retail business has paid off and we have achieved satisfactory rate of growth in spite of adverse market conditions. We are hopeful of increasing our presence in this sector as the market condition begins to better. We have also ventured into this year in Mutual Fund and Insurance distribution. These new sectors shall add to the revenues and shall make good the under performance of our existing business. With recession diluting and Economy showing signs of improvement we are hopeful of that newer avenues shall appear and opportunities will come.

RISK AND CONCERNS:

Our company has a diversified source of income such as Capital Market, Furture & Options Segment, Fixed Income Group and Mutual Fund Distribution, still economic slowdown, increase in interest rate, political instability remain key concerns. Our business continues to remain linked with the economic performance of the country. Company's performance shall be affected if Stock Markets were to decline sharply. Increased competition also is a cause of concern. Availability and retention of manpower is also a key considering the growing number of opportunity and increasing number of players in this field.

OUTLOOK:

The Indian economy has its own strengths and it has sound fundamentals, this fact had been proved in the current recession affecting the world. We were better off in comparison with other countries and have sailed through the situation in better way. International community has seen and accepted our wilt and sound economy which in turn will bring back investments and other projects in country once the situation starts reviving. We have technology platform at par with other players in the field and efficient risk management system. This, coupled with our growing geographical reach, should allow us to maintain our superior service delivery standards and improve selling of financial products and services to the investor fraternity. The new segment i.e. Retail which is being given thrust in the year shall certainly add to the revenue of the company. In coming year we will commence CDX segment which will also add to the revenues.

HUMAN RESOURCE:

Our people are our key assets of the organization. Skilled and talented manpower is the base for our services and quality of the services. Company follows the policy of "OWN YOUR DEPARTMENT POLICY", where we give freedom to the employee to work as if he is the owner of his department. Our highly motivated work force work towards providing a quality service and adding to the growth of the company. Company provides on the job training to the employees, where management personnel and senior executives train the junior executives and new appointees. Regular meetings are held with the personnel of all departments to share with each other their thoughts and suggestions for betterment of the processes and work lines.

CAUTIONARY STATEMENT:

The statements made in this report describe the Company's objectives and projections that may be forward looking statements within the meaning of applicable securities laws and regulations. The actual results might differ materially from those expressed or implied depending on the economic conditions, government policies and other incidental factors, which are beyond the control of the Company.
