CHAIRMAN'S COMMUNICATION

My dear fellow shareholders,

It has been another great year together, at your Company.

Indeed, this year has brought a very special sense of achievement for all of us, perhaps more than ever before in the past.

Sales have increased by 24.7% to Rs. 444.6 Crores. Exports have doubled to Rs. 18.7 crores.

Net profit after tax has maintained its growth momentum by rise of 37.9% to Rs. 29.47 crores.

What is truly commendable is the manner in which our people have achieved these new heights; always breaking new ground, always setting new standards, always driven by a desire to excel.

Our confidence in the latent potential of economies of scale is just beginning to be rewarded. As our expansion projects go on stream, the investments we are making in all these areas will generate even higher returns.

Expansion and modernisation have created a solid foundation for a successful future. This foundation begins with a customer focus in everything we do, as our success is dependent on our customers' success. Our objective today is to be the supplier that our customers cannot afford to be without, by providing them quality products and services that give them tangible competitive advantages in the marketplace. Building on success, we have expanded our commitment to new product development. Our steady stream of innovative, value-added products has captured the interest of existing customers and opened doors to new ones.

We have expanded our marketing efforts to better understand and more quickly exploit market opportunities. The textile market continues to globalise. Fiscal 2002 will be a year in which we will complete the expansion and modernisation under TUF to solidify our production base. We expect fiscal 2003 to be a "breakout" year as we begin to capitalise on the financial benefits associated with an expanded presence, broader range of products, more efficient manufacturing and improved service. Our ability to grow would not be possible without the dedication and commitment to excellence of our employees. They are the biggest reason that Alok will continue to excel in our industry. I believe our future prospects to be very bright, and that you, our shareholder, will be rewarded for your continued support.

Advancing our technology will also be critical in successfully distinguishing our products from the competition. For many years, "technology" in textiles referred to improving machine speed. Today, we are looking to technology to create distinctive new products and further increase efficiencies. We are advancing our products and services while improving operations.

We will continue to put new capacities in place and streamline our plants for competitive advantages.

The theme of our efforts over the past several years has been to set Alok apart and increase its competitive advantages. To that end, we have focused on our core businesses in which we can be leaders, and we have structured and expanded those businesses for maximum efficiency. Our goal is to establish Alok as the premier source for distinctive, innovative products (i.e. fashion) and speed to the market. We believe we have in place all these elements needed to reach that goal.

Before I conclude, I extend my sincere gratitude to all the contributors to your Company's success, namely shareholders, employees, suppliers, consumers, bankers & financial institutions.
