DIVIDEND:

OPERATIONS AND FUTURE PROSPECTS:

During the year under review, the income increased by 41.70% to Rs. 85.60 Crores as compared to previous years of Rs. 60.41 Crores. The increase in sales is primarily on account of higher exports, efficiency in production, full capacity utilization and sale of value added products in the international as well as in domestic markets.

However, severe increase in prices of major raw materials and fuel costs coupled with increase in the financial costs adversely affected the profitability of the Company. The prices of the major raw materials were increased by over 30% during the first 9 months of operations. However, the higher sales volume achieved was able to reduce the impact on profitability to a considerable extent.

EXPORTS:

Amidst stiff competition internationally, the Company was able to promote its products in the international market. The export revenue increased to Rs. 34.31 Crores from Rs. 18.77 Crores thus, recording a significant growth of 82.79% over the previous year.
