AMIT SPINNING INDUSTRIES LIMITED

AN ISO 9002 COMPANY

“.....The competitive situation was and will be chaotic. The true objective is to take chaos as given and learn to thrive on it.

The winners of tomorrow will deal proactively with chaos; will look at chaos per se as market advantage, not as a problem to be got around.

Chaos & uncertainty are and will be market opportunities for the wise; capitalizing on fleeting market anomalies will be the successful business's greatest accomplishment. It is with this in mind we must proceed.....”

-Tom Peters

(Preface of “Thriving on Chaos”)

*At Amit Spinning we have always tried to follow these principles. This is the reason that despite of a prolonged period of rough weather that the textile trade has faced, **ASIL** is continuously strengthening its position as a niche player.*

Our Goal is singular : *To achieve the highest level of Stakeholder satisfaction.*

Our Business Philosophy is simple : *Succeed by re-mapping and looking beyond the boundaries that confine the Textile business.*

Our Strategy is clear : *Through technology, value -addition and the highest level of customer service create a unique position in all our markets.*

ANNUAL REPORT 1999-2000

Chairman's Statement*Dear Shareholder Friends,*

It's indeed pleasure to communicate to you through this letter in continuation of the trend started by Amit Spinning Industries Ltd. (ASIL) for last two years. I am happy to congratulate one and all at ASIL as they reach the 6th year of operations in the year 2000, and on declaration of maiden dividend.

The Indian Cotton Textile Industry has always been with ups and downs and has been going through the difficult phase for last few years. ASIL has not only successfully survived during this period but also made mark in the export market through its quality and consistency. Having started as a small player with unknown brand ASIL has come a long way. Its ability to perform in difficult industry has been achieved largely due to the people who have made possible delivery of quality products.

ASIL has now developed its base and is expanding and focusing on value added areas. Increase in competition normally result in decline in the margin on per unit of sale. For a growing company this need not necessarily result in overall reduction of profit which has been demonstrated by ASIL with its consistent growth.

It has however, yet to fulfill the promise of a high value addition and value creation. Some steps are initiated in this direction. I am sure with a dedicated, young and charged up team in place, the company is all set to change its LEAGUE and remap the horizons of business in years to come.

Managing Director's Review

Dear Shareholder Friends,

It has always been your management's endeavour to rise to the occasion and grab every opportunity. Despite various constraints of finance and performing in a highly volatile scenario, we had always believed that "Where there is a Will there is a Way." Importantly, our will and way both lead us towards value creation.

Beginning this year, the value creation at ASIL takes a new turn. In more than one way, we are attempting to improve, what we deliver, for eg.

- 1. Dividend :** We have proposed a dividend payout of as much as half of the total profits generated by your company in the year gone by. We believe, with more sustainability in profits, we should be able to improve upon shareholder rewards in future.
- 2. Entry into new product segments :** Your company has been consciously pushing for an entry into higher value added segments, based on its quality production platform for quite some time now. In a market, with severe price competition the only alternative for value creation could be "Changing the League" rather than anything else. By the end of current year, we shall be present in the finer counts and vertically integrated products, making the League Change process complete. This would reflect in our revenues and profitability growth in the years to come.
- 3. Improving Performance Parameters :** Your company has registered notable improvement in some of the key performance parameters, as highlighted below :

To sum up, our ultimate goal would be to generate a satisfactory return on shareholders funds and a competitive Economic Value Added. The same is evident from performance produced and shown as above.
