FINANCIAL ANALYSIS AND PERFORMANCE REVIEW

During the fiscal 2014-15, the turnover of the Company increased to Rs. 3,205.52 Lakhs as compared to Rs. 2,638.57 Lakhs in the previous year. However due to sluggish market, increase in labour, power and other operational costs, and financial constraints, Company could not optimally utilize its capacities and its lossess increased to Rs. 2,411.71 Lakhs as compared to Rs. 962.02 Lakhs in the previous year. Further, over the period the company has eroded its net worth completely and it has been declared as a Sick Company under Sick Industrial Companies (Special Provisions) Act 1985 by the Board for industrial and financial restructuring (BIFR) vide its order dated 18th July 2012.

Management Discussion and Analysis

Indian Textile Industry is one of the leading textile Industries in the world. The textile sector has always been an important part of people's lives in India. The textile sector is highly diverse and has hand-spun and hand woven segments at one end of the spectrum, and capital-intensive, sophisticated and modern mills at the other. India's Textile Industry is largely dependent on textile manufacturing and export and India earns about 17% of its foreign exchange through Indian textile exports. The Indian Textile Industry also contributes 5% of the GDP and employs more than 35 million people, the second largest employment only after agriculture, and 14% of the industrial production of the country.

However, for Amit Spinning the last fiscal was very difficult and challenging mainly due to sluggish market demand and rapid & significant increase in labour, power and other operating costs and shortage of working capital which lead to fall in EBITDA levels.

M/s Amit Spinning Industries Limited has already been declared as a Sick Company under SICA by BIFR and the UCO Bank has been appointed as the Operating Agency. However, with an attempt to safeguard the interests of the stakeholders particularly employees, unit has been engaged in carrying out under job work.

Management is confident that once the rehabilitation scheme is approved by the BIFR, Company will turn around and recover from the current difficult phase and accordingly it is in process of reviewing its strategic plans and looking at means to find a way to increase its turnover, reduce its costs and achieve a higher value addition so that it could achieve positive result in the near future.

Segment-Wise Performance

Amit Spinning Industries Ltd. (ASIL) being a cotton yarn manufacturer has only one business segment. On the basis of geographical categorization of market, ASIL identified two segments i.e. exports and domestic.

During the year under review, Company has manufactured 1281.64 MT of yarn on its own resources and 1112.65 MT of yarn on job work basis.

Subsidiary Companies

As there are no subsidiaries/ associates / joint ventures of the Company, the provisions contained in Companies Act, 2013/Listing Agreements relating to subsidiaries are not applicable.

Share Capital

The Company's issued and paid up capital as on 31st March, 2015 stands at Rs. 20,58,48,335/- divided into 4,11,69,667 fully paid up equity shares of Rs. 5/- each. During the year, under review, the Company has not issued any share(s). Further the Company has not issued any share with differential Voting Rights/Sweat Equity shares/under Stock Option Scheme (ESOS) earlier and during the year.

The Company has no scheme of provision of money for purchase of its own shares by employees or by trustees for the benefit of employees. Hence the details under rule 16 (4) of Companies (Share Capital and Debentures) Rules, 2014 are not required to be disclosed.

Management Perception On Opportunities, Risks, Concern & Outlook

The potential size of the Indian textile industry is expected to reach US\$220 billion by 2020. Government has allowed 100% FDI in the Indian textiles sector under the automatic route. Further, the Government has proposed the establishment of Centres of Excellence for training the workforce in the textile sector and also to establish institutes under the public-private partnership (PPP) model to encourage private sector participation in the development of the industry. However due to change in China policy, Indian exports have been affected and showed down by 50% in the graph of financial year 2014-15, but could recover partially in the year 2015-16 to 1.2 million tones.

Further, Government has approved a debt restructuring package to help loss making textile mills to be administered on case by case basis by the banks within the prudential norms of the Reserve Bank of India. Also, BIFR has decided on reliefs / concessions etc. to be given to units / companies on the revival packages which will prove to be beneficial for Amit Spinning Industries Limited, as well.

Further, with focus on Make in India, the Indian Textile industry is expected to become resilient and robust through various support measures likely to be announced by the government. The future outlook for the Indian Textile Industry looks promising, buoyed by both strong domestic consumption and increase in export turnover.

Slow but potentially promising increase in demand of cotton yarn in domestic market and talk of economic reforms by the new government as well as encouraging export promotion policy for textile sector have already improved market sentiments to some extent. With the awaited approval of rehabilitation scheme by BIFR and with the continued support and co-operation of company's bankers, management believes that your Company would again initiate its own production, optimally utilize capacities, increase sales volumes, and consequently margins are also expected to be strengthened in due course.
