OPERATIONS:

The Company continued to face severe cash flow problems and could not buy cotton at opportunistic rates also the fuel prices remained very high. It therefore continued to incur losses till the third quarter. It even had to resort to conversion contracts to generate funds to meet operational expenses from time to time.

The interest expressed by M/s. Spentex Industries Ltd. through its Managing Director Shri Mukund Choudhary to acquire the controlling stake in the Company was an important event. This enabled the company to purchase raw material at competitive rates. This also brought up the morale of the employees and the operational scenario changed in the last quarter of the year. Adequate cotton stock was provided. Also the captive power was becoming costly because of higher fuel cost. Your company is now reconnected with MSEB, thus bringing the power cost lower. Also under the aegis of CDR, one time settlement was done and all the banks and financial institutions were paid their dues in full and final settlement except Bank of Rajasthan. This provided tremendous relief in terms of working capital management and your company came back to full operations from the month of March 2006.

Also now the marketing restructuring is going on as your company is in a position to give assured deliveries to customers at competitive rates.

FUTURE OUTLOOK:

The company is taking steps to technologically upgrade its machines so as to improve on quality and productivity. It is also taking efforts to reduce cost at all levels of activity including reduction in borrowing costs so as to achieve reasonable levels of profitability unlike the loss situation in the recent past. In addition to the above your company will also source cotton strategically and leverage the price advantage to meet customer requirements.
