Management Discussion and Analysis**INDUSTRY STRUCTURE AND DEVELOPMENTS :**

India is an agrarian economy largely dependent on the monsoon Gods. India plays dominant role in the global castor market. Castor Industry is the pride of Gujarat State for decades. The state of Gujarat alone accounts for the total Indian production of castor seeds. The castor oil being important derivatives , the Government has also made favourable policies favoring the Industry.

BUSINESS REVIEW :

Looking to the overall economic scenario and very promising field of castor seeds your company has diversified in to trading of castor seeds.

OPPORTUNITIES :

Government of Gujarat has brought about suitable modifications in their agricultural policy .The favorable Government policy and the total control over castor seeds production in Gujarat results in to prosperous future

THREATS :

The major concern is declining level of consumption of castor oil world wide all the few years. The another threats is the stagnation in levels of total castor oil production and buyers shifting to cheaper alternatives. Your company faces normal market competition in its business. The profitability is subject to availability of product in sufficient quantity and demand of the global market.. Being Agricultural product , the supply depends upon the vagaries of monsoon.

OUTLOOK :

Your company is likely to maintain its focus on commodity trading and avail membership of National Commodity Exchange.
