OPERATIONS

The Indian Financial Sectors confirmed to be depressed for the third consecutive year. The Reserve Bank of India come out with numerous guidelines and restriction for financial sectors where your company operates. These effected all aspect of the company's business activites and Directors could not do business as projected and desired. The decreased busienss activities leads to total income Rs.66.54Lacs as compared to Rs. 225.09 Lacs achieved in previous Year. However due to strict management of funds and cost cutting fee company was able to post profit after taxes to Rs. 4.05 Lacs as comapred to Rs.17.13Lacs during the previous Year. Thus results are satisfactory considering verious restriction under which company is operating.

FUTURE OUT-LOOK

The central goverment has taken various measures to revive industrial climate and indian economy which is yet to show any positive impact. The financial sectors rules and regulations are still unclear and your directors doubt wish to commit funds and increase business activities. The future out look can not be predicated in uncertain environment.
