25.0 ACKNOWLEDGEMENT :

Your Directors place on record their appreciation of the endeavour of the employees at all levels and the services rendered by them.

The Board also gratefully acknowledges the valuable guidance, support and cooperation received from Department of Heavy Industry, Ministry of Heavy Industries & Public Enterprises, Government of India as well as other Ministries in both Central and State Governments.

The Board is also thankful to the Company's valued shareholders, esteemed customers for their valued patronage and for the support received from the bankers, financial institutions, bondholders and suppliers in India and abroad.

Kolkata,
17th August, 2012.

On behalf of the Board,
KALLOL DATTA
Chairman & Managing Director.

ANNEXURE TO DIRECTORS' REPORT

Management Discussion & Analysis.

Business Scenario :

The overall outlook for the year 2012-13 seems to be positive, considering the fact that, various strategic measures undertaken by the Company are produced the desired results, specially the improvement in operational efficiency.

With continued emphasis on improvement of yield and quality of tea along with the current favourable trend in both the domestic and international tea markets, your Tea Division is expected to yield better results in the year 2012-13.

Your Engineering and Electrical Divisions have been shown signs of improvements in spite of adverse market conditions. The market conditions are expected to recover as at present, the scenario in the areas, in which these Divisions operate, is undergoing a slower growth. The Company has drawn up a roadmap to augment the turnover in the coming years for which expansion and diversification programmes are being taken up.

Opportunities & Threats :

Your Tea Gardens have the potential to achieve higher yield, produce best quality of tea and to reach within the top 10 position in the Batting Order for each of the Tea Gardens. But, tea is a cyclic nature of business. It is price sensitive to domestic and global demand and limits scope of growth due to limitation of land. In addition, intensified Plantation programme is being carried out at the Tea Garden to sustain improvement in quality and yield.

The 12th five year plan envisages additional power generation to the tune of 76000 MW. Though, this will provide the demand for the products of Engineering and

Electrical Divisions, the growth in the present operating segments is expected to be low. Hence, pressure on value additions is expected which is being planned to overcome by cost control measures and increase of turnover through diversification programme.

Segmentwise Performance :

The Company is a multi-segment Company as reported in Note No.10.16 in the Accounts.

Outlook :

The overall outlook for the year 2012-13 is expected to be positive in spite of adverse climatic conditions for Tea Division. For Engineering and Electrical Divisions the year 2012-13 will be a challenging one owing to lesser price realization consequent to idle capacities of the industries.

Risk & Concerns :

Apart from normal risk applicable to an industrial undertaking, the Company does not foresee any serious area of concern.

Financial Performance :

The detail financial performance of the Company are appearing in the Balance Sheet and Profit & Loss Account for the year. Results indicates an upward trend in Company's overall performance. It has ensured around 16% growth in turnover during the year 2011-12 as compared to the preceding year and recorded a profit of ₹ 11.85 crores before tax.

Human Resource :

During the year, employer and employee relationship remained cordial.

INFORMATION PURSUANT TO SECTION 217(1)(e) OF THE COMPANIES ACT, 1956.

1. CONSERVATION OF ENERGY :

[A] Energy Conservation Measures taken :

- [i] The Company has formulated Energy Management Policy to be implemented across all the Divisions of the Company.
- [ii] M/s. National Productivity Council (NPC) has been assigned the task of conducting Energy Audit in one of the tea Gardens, one of the manufacturing units of the Engineering Division and Chennai Unit of Electrical Division.
- [iii] The recommendations of the NPC's audit are under implementation in the Tea Gardens.
- [iv] Further, installation of energy efficient VFBD Driers and coal stove in Tea Gardens has been made for reduction of fuel consumption and energy cost. Though, upgradation of Panel Board and installation of Capacitor Banks in Tea Estates, the Division has aimed to obtain benefit in future. The Division has also plans to install energy efficient machinery in future in all the Tea Estates in a phased manner, in order to increase power factor efficiency.
- [v] The Audit is still to be completed in Engineering Division and the Chennai Unit and the recommendations are made available in the first half of the current fiscal and the same will be implemented.
- [vi] The improvement of the Power Factor has already been taken up across the various load centers of the manufacturing unit of all the Divisions.
- [vii] Impact of measures of the above :
Electrical energy consumed on light and fan have been significantly reduced. Further to the reduction in electrical energy by implementation of Energy Efficient Programme in the previous years, it is expected that the present study will enhance the savings after implementation of the recommendations in the Divisions.
