B. MANAGEMENT DISCUSSION AND ANALYSIS

The company manufactures and markets a range of Emulsion Polymers - Synthetic Latexes and Synthetic Rubber.

I. CURRENT SCENARIO.

Your Company is one of the leading producers of polymer products namely, Synthetic Latexes (Vinyl Pyridine Latex, Carboxylated Styrene Butadiene Latex, Styrene Acrylic Latex, Nitrile Latex, etc.) and also Synthetic Rubber (High Styrene Rubber) in India. The Company has one of the broadest ranges of products in the industrial segments and caters to a wide range of industries. Company's Synthetic Latexes products are used, among other applications, for tyre cord dipping, paper and paperboard coating, carpet backing, concrete modification/water proofing, non-wovens, textile finishing, paints, etc.,. Various grades of Synthetic Rubber find application in products such as footwear, automotive components, moulded items, v-belts, conveyor belts, hoses, etc.

The Company's major raw materials are petrochemical products and its business is vulnerable to high volatility in the prices of crude oil and its downstream products. This financial year the lower prices of crude oil and downstream petro-chemicals was advantageous to the company since most input material costs decreased significantly towards the second half of the year. The Company was able to manage inventories well and secure good prices on input materials.

A number of steps have been taken by the management to improve the operational efficiency of the Company in different functions like marketing, human resource development, production process, utilities etc.

Your company is recipient of Total Productive Maintenance (TPM) Excellence in Consistent TPM Commitment Award - Category A by the Japan

apcotex industries limited

Institute of Plant Maintenance (JIPM). TPM has helped the company significantly in improving efficiencies in plant and in operations and rationalizing costs. During the previous year, your Company has successfully completed re-certification of the integrated ISO 9001, ISO 14001 and OHSAS 18001. During the year under review your company has been allowed by Indian Chemical Council (ICC) to use "Responsible Care" logo for a period of one year till July 2015, which will be renewed thereafter after the audit.

II. OPERATIONS DURING THE FINANCIAL YEAR 2014-15.

During the year, the Company achieved Gross Value Sales of ₹ 39114.46 lacs, registering a growth of 18.40%, compared to that of the preceding year. The company exported its products worth ₹ 6899.46 lacs compared to exports of ₹ 3470.88 lacs during the previous year, a growth of 98.78%.

The Synthetic Rubber Latex business has registered volume sales growth of 27.32%, and Synthetic Rubber business has registered volume growth of about 23%, as compared to the volume sale during the previous financial year.

There was a continuous thrust from the management to develop a strong research and development and technical service team to develop new products for export markets, explore new applications and understand better the changing customer needs.

Profits before tax registered a growth of 109% to ₹ 3482.85 lacs as compared to ₹ 1665.13 lacs during the previous year due to better realizations, lower raw material costs, product/customer mix and exports with good margins. EBITDA increased by about 71% from ₹ 2756.43 lacs in the previous year to ₹ 4704.83 lacs in FY 2014-15.

The profit after tax stood at ₹ 2468.06 lacs as compared to ₹ 1314.33 lacs in the previous year.

The Balance Sheet of the Company is also quite healthy with Debt/Equity ratio of 0.21, reasonable Working Capital cycle and Cash/Liquid Investments valued at ₹ 49.11 crore based on NAV as on March 31, 2015.

Your Directors consider Company's performance as satisfactory.

III. OUTLOOK.

The Company expects FY 2015-16 to be more challenging since we already have a fairly high market share across all segments in India and overall growth of the economy has been slow. Introduction of new products and exports are short term future growth drivers for the Company. In the medium to long term the Company is exploring adding new capacities for current products, new adjacent businesses as well as opportunities for inorganic growth.

With company's continuous endeavour to enhance efficiencies at all levels and functions, your Directors

view the prospects for the financial year 2015-16 with cautious optimism.

IV. RISKS AND CONCERNS.

The Company has laid down a well-defined Risk Management Framework covering the risk, risk exposure, potential impact and risk mitigation process. Major risks identified by the business and functions are systematically addressed through mitigating actions on continuing basis. These are discussed at the meetings of the Audit Committee and the Board of Directors of the Company.

The Company has formed Internal Risk Management Committee, which periodically reviews all the risks in the organisation and identifies risk areas, monitors and reports the compliance and effectiveness of the policy and procedure to the Audit Committee and Board.

The Audit Committee and Board review the risks and suggest steps to be taken to control and mitigate the same through a properly defined framework.

The Company's Board of Directors perceives the following risks as high risks areas:-

1. Currency / Foreign Exchange Risks
2. Procurement Risks
3. Business Risks

Major risks arise from two main raw materials viz. Styrene and Butadiene. There is an availability risk associated with both, since Styrene is not manufactured in the country and is 100% imported. Butadiene is currently consistently available from only one manufacturer in the country even though there are two other manufacturers. No hedging instruments are available to hedge their availability and price volatility risk and therefore, the company manages the availability risks partly by monitoring overseas supplies and partly by varying inventory levels.

Hedging is available for Currency / Foreign Exchange risks and is resorted to selectively.

Some of the major raw materials are hazardous and inflammable. The Company has ensured that required Safety equipments and infrastructure are in place as per statutes and global safety standards. Your company is also certified for ISO 14001 and OHSAS 18001, which address all Environmental and Safety Systems and processes. In addition, all the safety measures like safety committee's constant supervision, periodical drills, risks awareness programmes, appropriate treatment of effluents generated, are regularly taken with constant attention from senior level of the management.

The Company has also insured its assets, loss of profits and standing charges for insurable risks.

V. INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY.

Internal checks and controls covering operations of the Company are in place and are constantly being improved upon. Adequate system exists to safeguard company's assets through insurance on reinstatement basis and maintenance of proper records. The company has well defined procedures to execute financial transactions.

Internal audit is being conducted by an Independent firm of Chartered Accountants. The internal auditor monitors and evaluates the efficiency and adequacy of internal control system in the organisation, its compliance with operating system, accounting procedures and policies of the Company. Based on the observations of the internal auditor, the process owners undertake the corrective action in their respective areas. Significant audit observations and corrective actions thereupon are presented to the Audit Committee.

The Partners of both, Statutory and Internal Auditor attend all the Audit Committee meetings.

VI. DEVELOPMENT OF HUMAN RESOURCE / INDUSTRIAL RELATIONS.

The company continuously monitors its Human Resource requirement to ensure that it has adequate human skills commensurate with its needs.

Cordial relations exist between the employees at various levels and the management.

To upgrade human skills and improve their efficiencies, the company continuously organizes workshops on different management areas and also deputed employees to external workshops and seminars.

CAUTIONARY STATEMENT.

Statement in this Management Discussion and Analysis describing the Company's objectives, projections, estimates, expectations or predictions may be "forward-looking statements" within the meaning of applicable securities laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to the company's operations include raw material availability and prices, cyclical demand, movements in company's principal markets, changes in Government regulations, tax regimes, economic developments within and outside India and other incidental factors.

C. WIND POWER

The Wind Turbine Generator installed at Sadawaghapur, Taluka – Patan, District Satara, Maharashtra, has generated gross revenue of about ₹ 102.13 lacs during the financial year (previous year ₹ 119.45 lacs), and same is netted-off against the power cost.

D. DISCLOSURES UNDER COMPANIES ACT, 2013

I. ENERGY, TECHNOLOGY & FOREIGN EXCHANGE
