MANAGEMENT DISCUSSION AND ANALYSIS REPORT

Background:

During FY 2011 India's GDP grew at 8.6% which is second highest growth rate among major countries in the world bettered only by China. However, India faced several inflationary pressures. RBI has raised interest rates often twice in a quarter and in May 2011, it hiked the interest rate by 50 basis points instead of usual 25 basis points. Thus the growth will be moderated in FY 2012 because of inflation and higher interest burden.

(a) Industry Structure & Developments:

The Non-Banking Financial Companies (NBFC's) as a whole account for 9.1 percent of the assets of the total financial system. Reserve Bank of India has undertaken measures to preserve financial stability and arrest the moderation in the growth momentum.

(b) Opportunities & Threats:

With GDP growth forecasts of 7% - 8% over the next few years, the Indian economy will continue to provide several growth opportunities. The increased thrust on the infrastructure sector including power, road, ports, telecom and other urban infrastructure projects will continue to provide excellent investment opportunities in the future. In addition, the services sector which is growing at rapid pace and contributes substantially to GDP will provide many new opportunities for the financial services industry in India.

The NBFC Sector continues to face competitive pressures from the Banking sector and financial institutions, due to their increased penetration in the consumer financing market, with comparatively low cost of funds at their disposal. The spreads in the lending business have also narrowed considerably, bringing risk-adjusted margins to generally unviable levels.

(c) Segment-wise Performance:

The Company's main business is investment in shares / debentures, immovable properties, equity mutual funds, debt mutual funds etc. All the activities of the Company are related to its main business. As such there are no separate reportable segments.

(d) Outlook:

The Company continues to explore the possibilities of expansion and will make the necessary investments when attractive opportunities arise.

(e) Risks and Concerns:

The Company is exposed to specific risks that are particular to its businesses and the environment within which it operates, including interest rate volatility, economic cycle, market risk and credit risk. The Company manages these risks by maintaining a conservative financial profile and by following prudent business and risk management policies.

(f) Internal Control Systems & their Adequacy:

The Company's operating and business control procedures have been framed in order that they ensure efficient use of resources and comply with the procedures and regulatory requirements. The Company has a proper and adequate system of internal controls to ensure that all assets are safeguarded and protected against loss from unauthorized use or disposition and the transactions are authorized, recorded and reported correctly. The Audit Committee reviews the quarterly and annual financial statements, adequacy of disclosures treatment of various items involving accounting judgments.

(g) Discussions on Financial Performance with respect to Operational Performance:

Sales and other income of the Company during the year decreased to Rs. 241.67 Lacs as compared to Rs. 373.33 Lacs in the previous year. The Company has for the year ended 31st March, 2011 earned a net profit of Rs.157.20 Lacs (Previous year Rs. 286.77 Lacs) after providing for taxation.

(h) Human Resource Development:

The Company believes that the human resources are vital in giving the Company a Competitive edge in the current business environment. The Company's philosophy is to provide congenial work environment, performance oriented work culture, knowledge acquisition/ dissemination, creativity and responsibility. As in the past, the Company has enjoyed cordial relations with the employees at all levels.

The number of employees as on March 31, 2011, stood at NINE (9).
