2. OPERATIONS :

During the year under review your company has recorded sales of Rs.702.58 lacs as compared to the earlier year sales of Rs. 414.82 lacs registering a substantial increase. But for the general recession in the industry, your Company could have achieved much better turnover. The year under review for your company was a difficult one. Although the production improved, the economics of production was adversely effected.

Despite adverse conditions your company has taken several concerted measures to combat the situation. The production process at Co-ex Tube Division has undergone a substantial change and resulted in to enhanced customers satisfaction and improvement of productivity parameters. The Company has laid emphasis on cost cutting measures. As a result of these measures, the financial results for the current year will be significantly better. However, to ensure long term viability, the Company is in urgent need of restructuring of finances. Your Company has raised funds for setting up the Co-ex Tube Division at the then prevailing high rate of interest. It is difficult for your Company to service the interest burden as it stands today.

The Management is totally committed to revive the operations and has put in concerted efforts to sustain the current production level. The management is also confident that the financial health of the unit can be nurtured back to health in the shortest possible time. Towards this end your Company has approached to the Financial Institutions and bank for restructuring and rescheduling its dues.

The company has roped in the services of KJMC Global Markets (India) Ltd for exploring the various avenues of financial restructuring including joint venture.

a) AMMONIUM NITRATE DIVISION :

During the year under review, the production of this division located at Chikalthana continued to be suspended for want of funds for revamping and modernisation, however, the Panoli unit has performed satisfactorily during the year. The production at Panoli unit was 4863 MT as compared to 2716 MT in the previous year registering a significant increase.

21st Annual Report 2000

b) EMULSIFIED ANFO DIVISION

Your directors regret to inform you that for want of orders your company was forced to suspend the production at its Waidhan & Jharsuguda plants of this division during the year.

During the year 1997-98 and 1998-99 the company continued the supply to Northern Coal Fields Ltd (NCL) pending fixation of prices by Coal India Ltd based on the prices prevailing during the year 1994-95, however, the matter is still hanging under fire. As the prices had been fixed for the other suppliers, your company had no other option but to file a writ petition against NCL demanding the fixation of prices. The matter being still pending in court, the tender for the year 1999-00 submitted by the company is also not opened. The company has, however, submitted its tenders to NCL and Mahanadi Coal Fields Ltd for the year 2001-02 which are expected to be opened shortly. As a result thereof, your company expects to revive the operations of this division during the current year.

c) CO-EX TUBES DIVISION

The production of Co-extruded tubes division is increased to 195.05 lacs tubes during the year compared to 99.97 lac tubes in the previous year. In order to increase the range of product mix and product quality, tools of 25mm dia is indigenously developed. The company is also in the process of developing the tools of 22mm and 50mm dia which would not only substantially increase the range of product mix but also help in better utilisation of Plant capacity. Your Directors, therefore, are confident that during the current year not only the turnover will go up but the product profitability would also improve.

3. REFERENCE TO BOARD OF INDUSTRIAL AND FINANCIAL RECONSTRUCTION (BIFR)

In view of the negative net worth of the Company as on 31.3.99, the Company had approached to the Hon'ble BIFR with an application under section 15 (1) (O) of the SICA Act, 1985. The bench concluded that the Company had not approached the Hon'ble BIFR with clean hands and it was not the fit case to be considered under the Act. Further it was concluded that the company did not fulfilled the criteria of the sick industrial company within the meaning of section 3 (1) (O) of the Act and accordingly reference made by the company was dismissed as not maintainable. The company preferred an appeal to Hon'ble AAIFR and sought the relief.

In the meantime the company was planning to restructure its operations and accordingly had approached prospective parties for financial and managerial participation in the operations of the company. In November, 1999 it was decided to have joint venture participation of a foreign party in Co-ex tube division of the company. To arrive at the correct financial position of the company and to make way for such joint venture participation by foreign party, the Board of the company decided to change its accounting year from March ending to December ending. The company had finalised its accounts for the year ended on 31-12-1999 and accordingly decided to approach BIFR afresh for rehabilitation of the company.

Meanwhile, on 13th January, 2000 Hon'ble AAIFR decided company's appeal against the order of Hon'ble BIFR and expressed its inability to interfere with the order of the Hon'ble BIFR. The company's reference based upon negative net worth as on 31-12-1999 U/S 15 (1) of SICA Act, 1985 was also rejected as non-maintainable by Hon'ble BIFR. The company had appealed to Hon'ble AAIFR against the said Order of the Hon'ble BIFR. The appeal petition is pending for admission before Hon'ble AAIFR. Pending consideration of that your directors in their meeting held on 22.1.2001 have resolved to submit the application to Hon'ble BIFR based on the audited accounts of the company as of 31.12.2000 for seeking necessary rehabilitation package in the matter in view of the accumulated losses which are further increased to Rs.2738.02 lacs resulting in to further erosion of the net worth of the Company.

9. DIVIDEND :

In view of the losses, your Directors regret their inability to recommend any dividend for the year ended 31st December, 2000.

10. AUDITOR'S OBSERVATIONS :

a) In regard to the advances given by the Company to Videocon International Ltd and Videocon Appliances Ltd for purchase of shares, as the company was in need of cash resources, it was thought to be expedient in the interest of the company that the company augment its resources by canceling the deal without insisting for damages as otherwise litigation would have prolonged the much needed augmentation of resources at this juncture.
