MANAGEMENT DISCUSSION AND ANALYSIS

A) INDUSTRY STRUCTURE AND DEVELOPMENTS:

1. The Textile Industry has been passing through one of the worst recessions. The industry continues to be dominated by un-organised sector i.e. Powerlooms and Handlooms and small spinning units. Organised sector has to compete with this un-organised sector whose cost of production is comparatively lower than that of the organised mills due to low labour cost, low overheads and various concessions in duties, taxes etc., available to them.
2. In case of our Company, during the year under review, it continued operations with lower production capacity as 5,000 spindles were damaged during the earthquake which took place in Gujarat in January, 2001. Despite sluggish market and stiff competition the Board considers the overall performance of the Company as satisfactory within the said limitations.

B) OUTLOOK, OPPORTUNITIES & THREATS AND RISKS & CONCERNS :

The demand and margins are likely to remain under pressure in the current year owing to the recession, competition, and rising cost of inputs and overheads like fuel, electricity and labour coupled with heavy interest burden. The Company is taking appropriate steps to meet the rising costs by effecting cost reduction on all fronts. The Company envisages opportunity in the value added yarn due to encouraging demand and it shall gear its operation to exploit the opportunity to its advantage. However, the impact of heavy interest burden and continuous losses can be dealt with only, if suitable financial restructuring package is finalised with, the consortium of banks and financial institutions. Negotiations have been initiated with these secured lenders for an appropriate financial restructuring.

The company has become a Sick Industrial Company and a reference to the Board for Industrial and Financial Reconstruction will be made based on the Audited accounts for the year ended 30th June, 2003

C) INTERNAL CONTROL SYSTEMS AND THEIR ADEQUACY :

The Company has proper and adequate systems of internal controls in order to ensure that all assets are safeguarded against loss from unauthorised use or disposition and that all transactions are authorised, recorded and reported correctly. Regular internal audit by firms of Chartered Accountants is an independent appraisal activity and it measures the efficiency, adequacy and effectiveness of other controls in the Company. All significant issues are brought to the attention of the Audit Committees of the Board.

D) COMPANY'S FINANCIAL PERFORMANCE & ANALYSIS :

The sales and operative income was at Rs. 10,012.81 Lacs (previous year Rs. 7,734.10 Lacs). Net loss was at Rs. 1,651.12 Lacs (previous year Rs. 1,135.03 Lacs).

E) HUMAN RESOURCE DEVELOPMENT / INDUSTRIAL RELATIONS :

The Company continued to have cordial and harmonious relations with its employees. Measures for safety of employee, training, welfare and development continued to receive top priorities.

E) CAUTIONARY STATEMENT :

Statement in this Management Discussion and Analysis describing the Company's objectives, projections, estimates, expectations or predictions may be 'forward-looking statements' within the meaning of applicable securities laws and regulations. Actual results could differ materially from those expressed or implied. Important factors that could make a difference to the Company's operations include raw material availability and prices, cyclical demand and pricing in the Company's principal markets, changes in Government regulations, tax regimes, economic developments within India and the countries in which the Company conducts business and other incidental factors.
