Directors of your company have pleasure in submitting their 13<sup>th</sup> Annual Report together with the Audited Accounts of the company for the year ended 31<sup>st</sup> July 1998.

(Rs. in Lacs)

Balance carried to Balance Sheet	(37.46)	169.56

The results for the year have been much below expectations. The capacity utilization of PE Tarpaulin Unit was 46% and the company could not fully cover interest burden. Production and sales were adversely affected due to delay in sanction of enhanced working capital facilities and blockage of funds due to use of duty paid material against exports, besides delay in implementation of weaving unit and consequent dependence of imports for captive requirement of fabric.

The weaving unit has been partially implemented. Implementation of the unit was withheld due to failure of Korean Suppliers and uncertainty of the availability of long term after sales support. Company has approached its bankers with modified scheme for allowing implementation of weaving unit and disbursement of unavailed term loan of Rs. 208 lacs.

Operations in merchant export activity were also adversely affected due to sudden drop in international market prices. The woven sack activity also faced drop in realisation due to recessionary trend prevailing in cement industry. Enhanced working capital facilities have been sanctioned in July '98. Company is hopeful of improving its performance in the current year with the availability of adequate working capital and implementation of weaving unit.

### DIVIDEND

Your directors are not recommending any dividend for the year due to inadequacy of the profits in the year.

### PUBLIC DEPOSITS

The company has not accepted any deposits from public in terms of Section 58A of the Companies Act, 1956.
