Balance part of the order which would bring in more or less equal revenue is expected to be completed during the current year.

ESCO activity is now the predominant activity of the Company. This division has brought in revenue of Rs.9036 lacs through sales of energy saving products as also rentals received on lease of such equipment

As against the sales revenue of about Rs.265 lacs during the year under review, your Directors are optimistic of logging sales of around Rs.1000 lacs during the current year. The Company expects to achieve this with the assistance and technology and other resources available through two of the associate companies.

Amongst all these developments, the brightest star on the business horizon of the Company is the "Asian E+ Energy Efficient Tube Light". In this venture, the Company has tied up with OSRAM, one of the world's leading producers of lights and lighting systems. The tube which is used in the E+ Energy Efficient Tube Lights is a slim tube called 'T5' which is by far the most efficient tube light produced anywhere in the world. Though the Company buys these tubes from OSRAM in India, the tubes are produced in OSRAM factories in the European Economic Community. The E+ Tube Light has recorded proven energy savings of over 45% as compared to the conventional tube lights.

After overcoming all the snags encountered during the field trials, commercial production has started in the current year and the Company expects the Retrofit Electronic Lighting Systems to contribute more than Rs.20 crores to the current year's revenue. Some of the corporates who have placed trial orders on the Company and have satisfied themselves before placing large orders are Bajaj Auto, Cadbury, DLF, BPL, Tata Consulting Engineers, Indian Telephone Industries, Maruti Udyog, Grasim Industries, Reliance Industries, Government of Gujarat, Bangalore Vidhan Soudha, NIIT, etc. Your Directors are happy to advise that this product has received unreserved and universal acclaim which more than makes up for the considerable delay in launching the product in the market.

Similarly, the Company's solar power plant activity has also taken off after overcoming hurdles during the last year. The order for 300 kWp Solar Power plant from the Brahma Kumaris & World Renewal Spiritual Trust is under implementation now and your Directors expect the execution to be completed before the end of the current calendar year.
