DIRECTORS'S REPORT AND MANAGEMENT DISCUSSION ANALYSIS:

To,
The Members,

Your directors have pleasure in presenting the 24th Annual Report together with Audited Accounts of the company for the financial year ended 31st March, 2009.

1. THE FINANCIAL RESULTS:

	(Rs in Lacs)	
	2008 - 09	2007 - 08
<u>Turnover</u>		
Sales (Net of Excise Duty)	5530.86	1690.10
<u>Profits</u>		
Profit before Interest, Depreciation and Tax (PBIDT)	281.05	64.48
Less: Finance Charges (interest and bank charges)	65.16	22.18
Profit before Depreciation and Tax (PBDT)	215.89	42.30
Less: Depreciation	22.16	21.15
Profit Before Tax (PBT)	193.73	21.15
Less: Provision for Tax (MAT) including FBT	25.10	0.95
Less: Income Tax relating to Earlier Years	0.12	15.92
Profit After Tax (PAT)	168.51	36.12

2. DIVIDEND :

From the financial results for the year under review, it is evident that your company has earned Profits after Tax (PAT) of Rs. 168.51 Lacs, however in view of accumulated losses of Rs. 334.60 Lacs, your Directors regret that it would not be possible to declare any dividend.

3. PLANT OPERATIONS:

Pursuant to the purchase agreement entered in to with M/s Shriram Fertilizers & Chemicals (a Division of DCM Shriram Consolidated Ltd.) on 22.10.02, your company has been able to achieve production of 49811 MT of SSP during the period year 2008-09 against the targeted production of 50000 MT which is about 100 % of the production target agreed with Shriram Fertilizers & Chemicals and 75% of installed capacity of the plant. In the year of recession the company could achieve the targeted performance due to significant mile stone turned by the government by providing Nutrient base variable concession. Availability of rock phosphate is main bottleneck in the smooth functioning of SSP industry. Now because of variable concession, the company could meet its requirement of raw material (i.e. Rock Phosphate) from imports also. Because of the said change in the Government policy the arrangement with Shriram Fertiliser & Chemicals was a great success during the year.

4. FINANCE:

We are glad to inform that as on date your company has no debts owing to Financial Institutions.

5. INDUSTRIAL RELATIONS

The company has generally maintained cordial relations with the employees.

6. PUBLIC DEPOSIT:

Your company has not invited any deposit from the public in terms of provisions of section 58-A of the Companies Act, 1956 read with the companies (Acceptance of Deposits) Rules, 1975.

7. PARTICULARS OF EMPLOYEES:

There was no employee in the company whose particulars are required to be given pursuant to Section 217(2A) of Companies Act, 1956.

8. INDUSTRY STRUCTURE:

Nitrogen, phosphorus, potassium are three major constituents of fertilizers. India has good reserves of phosphate rocks, which can be processed to give water soluble phosphatic fertilizers. Single Super Phosphate is a cheap fertilizer and also known as common farmer's fertilizer.

9. DEVELOPMENT IN GOVERNMENT POLICY:

Investment required for setting up a SSP unit is modest compared to Nitrogenous fertilizers. The setup with indigenous technology does not depend in any imported material because of availability of good quality of rock phosphate with Rajasthan State Mines & Minerals Limited a State Govt. Undertaking. The demand of fertilizers is likely to increase with the emphasis by the Govt. on augmenting agriculture produce. Major break through for the industry (Single Super Phosphate fertilizer) during the year was change in concession policy of the Government. Unlike earlier years where the fixed rate of concession was being paid by the govt. now the variable concession is there depending upon input cost of basic raw material i.e. Rock Phosphate and Sulphur. Because of variable concession industry could meet its requirement of raw material by importing Rock Phosphate. Government of India has also introduced nutrient base concession in which the value of Sulphur inherent in Single Super Phosphate is also recognized.

10. OPPORTUNITIES:

Since agriculture sector has its own importance in Indian economy, it is bound to grow and our product SSP has also its own importance in Agriculture sector. The sector has good prospects. SSP is in good demand particularly in the Northern Region.

11. RISK AND CONCERN:
(a) Government Policy:

The Government of India has decided a uniform all India MRP of Single Super Phosphate sensing the acute hardship of SSP manufacturers and also decided to monitor details of raw materials, Production, dispatches in districts of SSP under the Fertilizer Monitoring System w.e.f. 1st May 2008. However profitability depends on the concession.

(b) Availability of Raw Material:

Rajasthan State Mines & Mineral Ltd., a Govt. undertaking is the sole supplier of our basic raw material i.e. Rock Phosphate. The company has also imported the Rock Phosphate during the year.

(c) Concession on SSP:

The concession on SSP provided by the Govt. of India, plays a vital role in smooth selling and future prospects of this industry. However the Govt. of India has declared an industrial favorable policy from May-08.

For manufacturing SSP, indigenous as well as imported Rock Phosphate is used. Accordingly, Govt. of India has decided to provide separate rate of concession for SSP manufactures based on indigenous and imported Rock Phosphate for SSP manufactured using both indigenous and imported Rock Phosphate by any manufacturer, the rate of concession is being settled in proportion to the production of SSP through use of indigenous and imported Rock Phosphate respectively. Final concession rates are being worked on monthly sales on the basis of price of imported and indigenous Rock Phosphate, as applicable and imported sulphur for the preceding month.

12. INTERNAL CONTROL SYSTEM:

The company has proper and adequate system of internal control to ensure that all assets are safeguarded; transactions are authorized, recorded and reported correctly. The controls also ensure compliance with polices statutes.

13. RISK MANAGEMENT:

The management of your company controls business processes through operational systems, procedures and financials limits of authority. Your company is in process to make manuals for systems and procedures and delegation of powers and duties.

14. TOTAL QUALITY MANAGEMENT:

The emphasis on quality management followed by your company has yielded harmonious relationship at all levels. The management philosophy to have a strong marketing focus with excellent customer's services in a wide-ranging marketing area is apparent from the excellent achievement on this score in the past.

**15. CAUTIONARY STATEMENT:**

The report may contain certain statements that the company believes are, or may be considered to be "forward looking statements" that describe our objectives, plans or goals. All these forward looking statements are subject to certain risks and uncertainties, including but not limited to, Government action, economic development, risks inherent in the company's growth strategy and other factors that could cause the actual results to differ materially from those contemplated by the relevant forward looking statements.

16. CONSERVATION OF ENERGY:

Your company has been making continuous efforts to reduce energy consumption and achieve high plant operating efficiencies. The requisite information with regard to conservation, technology absorption and foreign exchange earning and outgo in terms of the Companies Act, 1956 (Disclosure of Particulars in the Report of Board of Directors) Rules, 1988 is set out in a separate statement attached here to as Annexure-I.

17. ENVIRONMENT:

The focus of your company is "Environment " friendly and quality production by adopting stringent controls for pollution free plant running coupled with regular monitoring arrangements for air, water and effluent zero level pollution.

18. DIRECTORS RESPONSIBILITY STATEMENT:

As required under section 217 (2AA) of the companies Act, 1956 your Directors state:

- (a) That in the operation of the Annual Accounts, the applicable Accounting Standards have been followed along with proper explanation relating to material departure.
- (b) That the accounting policies selected and applied are consistent and judgments and estimates made are responsible and prudent so as to give a true and fair view of the state of affairs of the company at the end of the financial year and of the profit / loss of the company for that period.
- (c) That proper and sufficient care has been taken for the maintenance of adequate accounting records in accordance with the provisions of the Companies Act, 1956 for safeguarding the assets of the company and for preventing and detecting fraud and other irregularities.
- (d) That annual accounts have been prepared on a going concern basis.

19. CORPORATE GOVERNANCE:

The code of Corporate Governance has been implemented in the company

I. The Company's Philosophy:

Your company strongly believes in good corporate governance. Strong corporate governance policy reflects healthy business growth besides being significant weapon of investor protection. Good corporate governance provides an appropriate framework to the Board & Management to carry out of the objectives that are in the interest of the company and shareholders.
