the 1990s, the number of people in the United States who are obese has increased by 50 percent. In 1990, 15 percent of the population was obese, but by 2000, that number had risen to 23 percent. In 2008, the number of obese people in the United States was 36 percent, and the number of people who are obese is projected to rise to 42 percent by 2010. The increase in obesity is a major public health problem, and it is a leading cause of death and disability in the United States. Obesity is a major risk factor for heart disease, diabetes, and other chronic diseases. It is also a leading cause of disability, and it can lead to a shortened life expectancy.
